**Prison** Jacqueline Z. Wilson,2008 Prison Cultural Memory and Dark Tourism

discusses decommissioned Australian prisons currently or potentially functioning as tourist attractions In particular it addresses a fundamental question Do the interpretations and presentations of the sites include and fairly represent the personal stories and experiences associated with those prisons The author argues that the conventional understanding of most of Australia s historical prisons fosters a radical othering of inmates and with it the exclusion distortion and historical neglect of their narratives This book examines avenues via which neglected narratives may be glimpsed or inferred presenting a number of examples This remedies the imbalance in some degree and tests such avenues potential as resources for inclusive interpretations by public historians and curators The book also focuses on the influence of celebrity prisoners whose links to the penal system are exploited as promotional features by the sites and in some cases by the individuals themselves Their narratives provide broad if unwitting support for the system and for the othering of the more general inmate population The ramifications of the above with regard to aspects of Australian identity mean that certain facets of the Australian character traditionally held to be emblematic are affected These effects have subtle but tangible consequences for modern Australians collective memory and deleterious consequences for current popular attitudes to penal practice

*Eating, Sleeping, and Sex* Albert J. Stunkard, Andrew Baum, 1989 First Published in 1989 Routledge is an imprint of Taylor Francis an informa company *10 Steps to Mastering Stress* Ph.D. David H. Barlow, Ph.D. Ronald M. Rapee, Sarah Perini, 2014-04 We may not be able to prevent stressful events from happening but we can change our lifestyles to handle stressful situations Here the authors outline a program that will help you identify what is causing your stress teach you calming techniques and provide you with a realistic approach to reducing stress Back cover **Pacific Empires** Frost, Alan, Samson, Jane, 2015-09-08 A new interest in European maritime exploration was aroused with the publication of the first volume of J C Beaglehole s edition of The Journals of Captain James Cook in 1955 In the forty odd years since then our knowledge of this exploration and of the imperialism of which it was a part has expanded enormously We now recognise that the scientific endeavours once seen as disinterested manifestations of the Enlightenment actually had both strategic and commercial implications And today much greater emphasis is given to the meanings of early encounters for both the Natives of the Pacific islands and the Strangers from a European world Glyndwr Williams has played a leading role in the development of these new insights Pacific Empires offers stimulating contributions by a number of his colleagues all authorities in their respective fields It is a timely examination of historical understandings at the end of the twentieth century

**One Health and the Politics of Antimicrobial Resistance** Laura H. Kahn, 2016-08-15 Does the use of low dose antibiotics in livestock put human health at risk Zoonoses infectious diseases such as SARS and mad cow that originate in animals and spread to humans reveal how intimately animal and human health are linked Complicating this relationship further when livestock are given antibiotics to increase growth it can lead to resistant bacteria Unfortunately there are few formal channels for practitioners of human medicine and veterinary medicine to communicate about threats to public health

To address this problem Dr Laura H Kahn and her colleagues are promoting the One Health concept which seeks to increase communication and collaboration between professionals in human animal and environmental health In One Health and the Politics of Antimicrobial Resistance Dr Kahn investigates the use of antibiotics and the surge in antimicrobial resistance in food animals and humans from a One Health perspective Although the medical community has blamed the problem on agricultural practices the agricultural community insists that antibiotic resistance is the result of indiscriminate use of antibiotics in human medicine Dr Kahn argues that this blame game has fueled the politics of antibiotic resistance and hindered the development of effective policies to address the worsening crisis Combining painstaking research with unprecedented access to international data the book analyzes the surprising outcomes of differing policy approaches to antibiotic resistance around the globe By integrating the perspectives of both medicine and agriculture and exploring the history and science behind the widespread use of growth promoting antibiotics One Health and the Politics of Antimicrobial Resistance examines the controversy in a unique way while offering policy recommendations that all sides can accept
