The United Nations Security Council and War Vaughan Lowe, Adam Roberts, Jennifer Welsh, Dominik Zaum, 2010-04-15 This is the first major exploration of the United Nations Security Council's part in addressing the problem of war both civil and international since 1945 Both during and after the Cold War the Council has acted in a limited and selective manner and its work has sometimes resulted in failure It has not been and was never equipped to be the centre of a comprehensive system of collective security However it remains the body charged with primary responsibility for international peace and security It offers unique opportunities for international consultation and military collaboration and for developing legal and normative frameworks It has played a part in the reduction in the incidence of international war in the period since 1945 This study examines the extent to which the work of the UN Security Council as it has evolved has or has not replaced older systems of power politics and practices regarding the use of force Its starting point is the failure to implement the UN Charter scheme of having combat forces under direct UN command Instead the Council has advanced the use of international peacekeeping forces it has authorized coalitions of states to take military action and it has developed some unanticipated roles such as the establishment of post conflict transitional administrations international criminal tribunals and anti terrorism committees The book bringing together distinguished scholars and practitioners draws on the methods of the lawyer the historian the student of international relations and the practitioner It begins with an introductory overview of the Council's evolving roles and responsibilities It then discusses specific thematic issues and through a wide range of case studies examines the scope and limitations of the Council's involvement in war It offers frank accounts of how belligerents viewed the UN and how the Council acted and sometimes failed to act The appendices provide comprehensive information much of it not previously brought together in this form of the extraordinary range of the Council's activities This book is a project of the Oxford Leverhulme Programme on the Changing Character of War

Governing the Bomb Hans Born, Bates Gill, Heiner Hänggi, 2010 Go nuclear or go zero as the international community stands at a nuclear crossroads a number of questions demand urgent attention How do established and emerging nuclear armed states manage their nuclear affairs Who commands and controls a country s nuclear forces What effect does the balance between secrecy and openness have on larger questions of security and democracy *Governing Nuclear Weapons* is grounded in the belief that the public s ability to hold nuclear armed states accountable for the security of their weapons is contingent on proper knowledge of domestic nuclear governance With a special emphasis on civilian control and democratic accountability it seeks to illuminate the structures and processes of nuclear weapons governance of eight nuclear armed states China France Russia the UK and the US as well as India Israel and Pakistan It examines the theoretical as well as practical functions and structures of those who possess the power to make nuclear decisions and those who have the practical means and physical opportunity to execute those decisions While the book assesses the whole spectrum of political oversight and control mechanisms in operation for each country including the roles and requirements of the executive the military and specialized civilian institutions it also takes a closer look at parliamentary institutions and civil society at large As nuclear terrorism proliferation and disarmament vie for the top slot on the global security agenda a comparative understanding of the various national nuclear discourses is no longer optional but required

Toward a Theory of Spacepower Charles D. Lutes, Peter L. Hays, 2015-03-18 This volume is a product of the efforts of the Institute for National Strategic Studies Spacepower Theory Project Team which was tasked by the Department of Defense to create a theoretical framework for examining spacepower and its relationship to the achievement of national objectives The team was charged with considering the space domain in a broad and holistic way incorporating a wide range of perspectives from U S and international space actors engaged in scientific commercial intelligence and military enterprises This collection of papers commissioned by the team serves as a starting point for continued discourse on ways to extend modify refine and integrate a

broad range of viewpoints about human initiated space activity its relationship to our globalized society and its economic political and security interactions It will equip practitioners scholars students and citizens with the historical background and conceptual framework to navigate through and assess the challenges and opportunities of an increasingly complex space environment

Global Trends 2030 National Intelligence Council,2012-12-01 FULL COLOR PUBLICATION Global megatrends for the next 20 years and how they will affect the United States This is the fifth installment in the National Intelligence Council s series aimed at providing a framework for thinking about possible futures and their implications The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15 20 years by identifying critical trends and potential discontinuities The authors distinguish between megatrends those factors that will likely occur under any scenario and game changers critical variables whose trajectories are far less certain Appropriate for anyone from business to banks government to start ups technology to teachers and more this publication helps anticipate where the world will be socially politically technically and culturally over the next few decades

Sanctions for Nuclear Disarmament and Non-Proliferation Armend Bekaj,Peter Wallensteen,2024-09-02 This book examines the interplay between sanctions and nuclear disarmament and non proliferation The volume aims to tackle three separate but closely intertwined issues It aims to revisit the debate on and deconstruct the concept of sanctions to provide a working theoretical framework to differentiate between positive sanctions or incentives or carrots and negative sanctions to identify the actors who may initiate sanctions i e states regional and or international organizations to ascertain the legality and legitimacy of such sanctions taking place to problematize and discuss the utility of sanctions and so on It aims to disentangle the concepts of nuclear disarmament and non proliferation particularly in light of the most recent geopolitical global shifts on nuclear powers interplay taking place in the background of the war in Ukraine and rising tensions in Southeast Asia and so on Finally it aims to conjoin the cause and effect cases between the application of sanctions on the one hand and the decision by states to pursue nuclear disarmament and non proliferation on the other By doing so the volume helps to update and stimulate the academic and policy debate on the inter relation between sanctions and nuclear disarmament and non proliferation This book will be of much interest to students of nuclear non proliferation economic sanctions security studies and International Relations

Arms Control in the 21st Century Oliver Meier,Christopher Daase,2013-05-02 This volume evaluates the impact of coercive arms control efforts to curb the spread of weapons of mass destruction in the twenty first century A new paradigm in arms control is gradually replacing the idea that mutually agreed restrictions on armaments can improve international security Thus Hedley Bull s classic definition of arms control as the cooperation between antagonistic pairs of states in military affairs needs to be amended by a new notion of coercive arms control as the set of non cooperative and non reciprocal measures to restrict the weapons or military capabilities of certain states This volume addresses the topic of how this ongoing paradigmatic shift will affect the

effectiveness of arms control as a conflict management instrument While some argue that new instruments can complement and strengthen traditional multilateral and inclusive arms control regimes others maintain that conflicts and contradictions between coercive and cooperative arms control regimes will severely limit their effectiveness This volume provides a forum for academics and practitioners from around the globe to discuss these developments in depth and to assess the specific strengths and weaknesses of these new instruments of arms control This book will be of much interest to students of arms control global governance foreign policy and IR Security Studies in general *Conflict in the Former USSR* Matthew Sussex,2012-10-04 This book examines a major concern in international security the nature and causes of conflict in the former Soviet Union *Security Strategies in the Asia-Pacific* A. Tan,2011-08-01 This book argues that given the existence of a discrete Malay archipelago security complex it is a fallacy for the United States to approach this region primarily through the prism of global counter terrorism China Engages Global Governance Gerald Chan,Pak K. Lee,Lai-Ha Chan,2011-10-20 This book focuses on China s increasing involvement in global governance as a result of the phenomenal rise of its economy and global power It examines whether and in what ways China is capable of participating in multilateral interactions if it is willing and able to provide global public goods to address a wide array of global problems and what impact this would have on both global governance and order The book provides a comprehensive assessment of China s increasing influence over how world affairs are being managed how far China with increasing clout interacts with other major powers in global governance and what the consequences and implications are for the evolving global system and world order This book is the first to explore China s engagement with global governance in traditional and new securities

Soldier Repatriation Kaare Dahl Martinsen,2016-04-01 Soldier repatriation from Afghanistan has impacted debate about the war This study highlights this impact with particular focus on Britain Denmark and Germany All three countries deployed soldiers soon after the 9 11 attacks yet their role in Afghanistan and the casualty rates suffered have been vastly different This book looks at how their casualties influenced the framing of the war by analysing the political discourse about the casualties how the media covered the repatriation and the burials and how the dead were officially recognised and commemorated Explaining how bodies count is not done exclusively by focusing on the political leadership and the media in the three countries the response from the men and women in Afghanistan to the official framing of the war is given particular weight Martinsen contributes to our understanding of European strategic culture by showing how countries respond to the same security challenges **Modern Warfare** Benjamin Perrin,2012-05-15 The face of modern warfare is changing as more and more humanitarian organizations private military companies and non state armed groups enter complex security environments such as Iraq Afghanistan and Haiti Although this shift has been overshadowed by legal issues connected to the War on Terror and intervention in countries such as Rwanda and Sudan it has caused some to question the relevance of the laws of war Modern Warfare explores the law s failure and potential to ensure compliance in the context of a changing

military landscape by doing so it opens a path to preventing further unnecessary suffering and violence
