Changing the Story Gayle Greene, 1992-01-22 Changing the Story gives an excellent and well informed account of the differences between the American Canadian British and French attitudes towards feminism and feminist fiction and literary theory a very readable book which reminds us that literature can change us and that through it we can change ourselves Margaret Drabble A distinctive contribution clear elegant precise and well read to the feminist discussion of narrative of Anglo Canadian white North American novelists and to contemporary fiction Greene tracks how feminist novelists draw upon and negotiate with traditional narrative patterns and how their critical approach implicates and provokes social change The book brings us to an intelligent post humanism which does not scant the social meanings of metafictional critique And in addition this book remembers hope Rachel Blau DuPlessis Changing the Story is an invaluable guide to the feminist classics of the last three decades This is cultural criticism at its best engaged re visionary and politically astute Nancy K Miller Greene tells a very good tale about how feminist fiction emerged developed made changes in the world and now threatens to wane The Women s Review of Books Her probing analysis should captivate general readers as well as academics WLW Journal Changing the Story is an important work of feminist criticism certain to spark controversy within the feminist community American Literature The feminist fiction movement of the 1960s 1980s was and is as significant a movement as Modernism Gayle Greene focuses on the works of Doris Lessing Margaret Drabble Margaret Atwood and Margaret Laurence to trace the roots of this feminist literary explosion She also speculates on the future of feminist fiction in the current regressive period of post feminism American Humanities Index ,1985-08 *The American Humanities Index* Stephen H. Goode,1987 *Quarry* ,1984 **Northbound** Leona Gom,1984 **Feminist Philosophy and Science Fiction** Judith A. Little,2007 Using selections from writers like Margaret Atwood Octavia Butler Marion Zimmer Bradley Karen Joy Fowler Ursula K Le Guin James Tiptree jr and many others this collection shows how the imagined worlds of science fiction create hold experiments for testing feminist hypotheses and for interpreting philosophical questions about humanity gender equality and more Four main themes Part 1 Human nature and reality concentrates on whether there is an intrinsic difference between males and females Part 2 Dystopias the worst of all possible worlds portrays misogynistic societies uncomfortably familiar to the early 21st century reader Part 3 Separatist utopias worlds of difference assembles stories that scrutinize both the virtues and vices of separatism In Part 4 Androgynous utopias worlds of equality the authors create worlds that anticipate the consequences good and bad of perfect sexual equality in education intelligence capability and reproduction Canadian Periodical Index ,1992 The Y Chromosome Leona Gom,2019-05-11 The Y Chromosome challenges the reader to meet an all woman society of the future The few remaining men live in hiding When one of these men is discovered the resulting conflict threatens both worlds The futurist society was developed by necessity and is far from perfect but it now abhors its male dominated past where violence escalated to an extreme The journals of a man who lived during The Change reveal the

desperate turmoil and anger of a world facing the extinction of half its members The journals are now part of university history courses leading to assessments of the past that are both ironic and disturbing Despite its striking differences to our world today there are uncomfortable similarities Taut and gripping a page turner at its very best the novel asks important and fundamental questions about who we are as women and men and what we will do to survive Originally written and published thirty years ago to enthusiastic reviews The Y Chromosome is even more relevant today **Dánta Aodhagáin Uí Rathaille.
