Material Christianity Colleen McDannell, 1995-01-01 What can the religious objects used by nineteenth and twentieth century Americans tell us about American Christianity What is the relationship between the beliefs of the faithful and the landscapes they build This lavishly illustrated book investigates the history and meaning of Christian material culture in America over the last 150 years Drawing on a rich array of historical sources and on in depth interviews with Protestants Catholics and Mormons Colleen McDannell examines the relationship between religion and mass consumption She describes examples of nineteenth century religious practice Victorians burying their dead in cultivated cemetery parks Protestants producing and displaying elaborate family Bibles Catholics writing for special water from Lourdes reputed to have miraculous powers And she looks at today s Christians Mormons wearing sacred underclothing as a reminder of their religious promises Catholics debating the design of tasteful churches and Protestants manufacturing marketing and using a vast array of prints clothing figurines jewelry and toys that some label Jesus junk but that others see as a witness to their faith McDannell claims that previous studies of American Christianity have overemphasized the written cognitive and ethical dimensions of religion presenting faith as a disembodied system of beliefs She shifts attention from the church and the theological seminary to the workplace home cemetery and Sunday school highlighting a different Christianity one in which average Christians experience the divine the nature of death the power of healing and the meaning of community through interacting with a created world of devotional images environments and objects

riveting journey into the rise of popular religion in America and life in early Hollywood and told with the flavor of the period's noir mysteries this is an unforgettable story of an iconic woman largely overlooked who changed the world *A Saint of Our Own* Kathleen Sprows Cummings, 2019-02-27 What drove U.S. Catholics in their arduous quest full of twists and turns over more than a century to win an American saint? The absence of American names in the canon of the saints had left many of the faithful feeling spiritually unmoored. But while canonization may be fundamentally about holiness, it is never only about holiness, reveals Kathleen Sprows Cummings in this panoramic, passionate chronicle of American sanctity. Catholics had another reason for petitioning the Vatican to acknowledge an American holy hero: A home-grown saint would serve as a mediator between heaven and earth, yes, but also between Catholicism and American culture. Throughout much of U.S. history, the making of a saint was also about the ways in which the members of a minority religious group defined, defended, and celebrated their identities as Americans. Their fascinatingly diverse causes for canonization, from Kateri Tekakwitha and Elizabeth Ann Seton to many others that are failed, forgotten, or still under way, represented evolving national values as Catholics made themselves at home. Cummings's vision of American sanctity shows just how much Catholics had at stake in cultivating devotion to men and women perched at the nexus of holiness and American history until they finally felt little need to prove that they belonged. **Sister Saints** Colleen McDannell, 2019 *Sister Saints* offers a history of modern Mormon women and argues that we are on the verge of an era in which women are likely to play a greater role in the Mormon church.

Women with Vision Susan Carol Peterson, Courtney Ann Vaughn-Roberson, 1988 The Roman Catholic order of Sisters of the Presentation of the Blessed Virgin Mary, founded in Ireland in 1776 by Nano Nagle as the Society of Charitable Instruction of the Sacred Heart of Jesus and migrating to North America in the mid 1850s, remains committed to tutoring, healing, and nurturing. **Women and Faith** Lucetta Scaraffia, Gabriella Zarri, 1999 This study of Italian women and Catholicism from the fourth through the twentieth century reflects this conflict and the tension between the masculine character of divinity in the Catholic church and the potential for equality in the gospels and early writings, neither male nor female but one in Jesus. **BOOK JACKET**

Building the Kingdom Claudia Lauper Bushman, Richard Lyman Bushman, 2001-12-27 The authors introduce the faith's charismatic early leaders Joseph Smith and Brigham Young, delve deeply into Mormon rites and traditions, follow the adventurous trail of Mormon pioneers into the West, evoke the momentous rise of Salt Lake City, and describe the numerous skirmishes and court battles between the Mormons and their neighbors, other religions, and the American government. They describe the church's formidable institutional apparatus, the unique role of women in Mormon affairs, both before and after the Mormons' practice of polygamy, and how the church has addressed the challenges of modernity. Throughout, the Bushmans demonstrate how the rise of a small and persecuted movement intersected and even transformed the history of the American nation. *OAH Annual Meeting* Organization of American Historians.
