Who are We? Samuel P. Huntington,2004 In his new book the author of THE CLASH OF CIVILIZATIONS turns his attention from international cultural divides to the cultural rifts in America The patriotic response to the events of September 11 only highlighted the loss of American identity at home says Huntington and already patriotic fervour has begun to subside The United States was founded by British settlers who brought with them a distinct culture including the English language Protestant values individualism religious commitment and respect for law Waves of immigrants later came to America but they gradually accepted these values and assimilated into the Anglo Protestant culture

More recently however national identity has been eroded by the problems of assimilating massive numbers of primarily Hispanic immigrants bilingualism multiculturalism the devaluation of citizenship and the denationalisation of American elites To counterpoint this Huntington draws attention to the beginnings of a revival of American identity in a post September 11 world where countries face unprecedented challenges to national security WHO ARE WE is an important work of political historical and cultural inquiry that like Huntington's previous book is certain to spark a lively debate *Understanding and Managing Organizational Behaviour Global Edition* Jennifer M. Improving the Airport Customer Experience Bruce J. Boudreau, Greg Detmer, Susan Tam, Stephanie Box, Ryan Burke, Joanne Paternoster, Lou Carbone, 2016 TRB's Airport Cooperative Research Program ACRP Report 157 Improving the Airport Customer Experience documents notable and emerging practices in airport customer service management that increase customer satisfaction recognizing the different types of customers such as passengers meeters and greeters and employees and types and sizes of airports It also identifies potential improvements that airports could make for their customers Publisher's description **Getting the Goods** Edna Bonacich, Jake B. Wilson, 2011-03-15 In *Getting the Goods* Edna Bonacich and Jake B Wilson focus on the Southern California ports of Los Angeles and Long Beach which together receive 40 percent of the nearly 2 trillion worth of goods imported annually to the United States to examine the impact of the logistics revolution on workers in transportation and distribution Built around the invention of shipping containers and communications technology the logistics revolution has enabled giant retailers like Wal Mart and Target to sell cheap consumer products made using low wage labor in developing countries The goods are shipped through an efficient low cost intermodal freight system in which containers are moved from factories in Asia to distribution centers across the United States without ever being opened Bonacich and Wilson follow the flow of imports from Asian factories exploring the roles of importers container shipping companies the ports railroad and trucking companies and warehouses At each stage *Getting*

the Goods raises important questions about how the logistics revolution affects logistics workers Drawing extensively on interviews with workers and managers at all levels of the supply chain on industry reports and on economic data Bonacich and Wilson find that in general conditions have deteriorated for workers But they also discover that changes in the system of production and distribution provide new strategic opportunities for labor to gain power A much needed corrective to both uncritical celebrations of containerization and the global economy and pessimistic predictions about the future of the U S labor movement Getting the Goods will become required reading for scholars and students in sociology political economy and labor studies
