Skandalisierung in den Medien. Eine Analyse der EHEC-Epidemie von 2011 Stephanie Kroll, 2015-07-09

Studienarbeit aus dem Jahr 2013 im Fachbereich Soziologie Recht und Kriminalität Note 1,3 Universität Hamburg Soziologie
Veranstaltung Food Crime Sprache Deutsch Abstract Durch die Verbreitung der Massenmedien in jüngster Vergangenheit tritt das Gefühl auf, dass ein Skandal nach dem Anderen auftaucht. Wenn man Lebensmittelskandal in Deutschland in die Suchmaschine Google eingibt, werden eine halbe Million Einträge in weniger als einer Sekunde aufgezeigt. Diese Einträge reichen von Nachrichtenmeldungen zu aktuellen Skandalen im Lebensmittelbereich bis zu Zeitskalen, die die Fälle an Lebensmittelskandalen in den letzten Jahrzehnten aufdecken. Hierbei sind es überwiegend Skandale mit verunreinigtem oder abgelaufenem Fleisch, das zum Verzehr verkauft wurde, oder mit Pestiziden bzw. Dioxin verunreinigte Eier, die immer wieder in den Medien auftauchen und für neue Schlagzeilen sorgen. Doch wie kommt es, dass diese Fälle an Skandalen erst in den letzten 20 Jahren auftauchen? In dieser Hausarbeit soll anhand des Beispiels des EHEC-Skandals aus dem Jahr 2011 geklärt werden, was genau einen Skandal in den Medien ausmacht und wie dieser EHEC-Skandal verstanden werden kann. Dabei wird zunächst auf theoretische Grundlagen eingegangen: Was ist ein Skandal? Wie entsteht ein Skandal im Allgemeinen und wie kann der Skandalablauf bestimmt werden? Danach wird darauf eingegangen, welche Personen und welche Kommunikationsmittel im Skandal gewirkt werden, um letztlich auf die Wirkungen und die Funktionen eines Skandals zu kommen. In einem weiteren Schritt wird genauer auf den EHEC-Skandal eingegangen: Was genau ist EHEC eigentlich? Wie war der Ablauf der Epidemie 2011 und was ist an EHEC-Skandalen? Es soll die Frage geklärt werden, was genau den Skandal ausgelöst hat und welche Personen, Organisationen oder Institutionen aus diesem Skandal einen Nutzen ziehen konnten, um Profit zu machen.

Mediale Krisenkommunikation und ihre Auswirkungen auf ältere Menschen. Soziale Arbeit als Unterstützung im Umgang mit Medien Elisa Shala, 2021-08-02 Bachelorarbeit aus dem Jahr 2021 im Fachbereich Pädagogik Medienpädagogik Note 6,0 Sprache Deutsch Abstract In dieser Arbeit wird neben der Frage, wie die Soziale Arbeit Menschen im dritten Lebensalter bezüglich medialer Krisenkommunikation unterstützen kann, auch gefragt, wie medienkompetent die Zielgruppe ist und ob sie die Seriosität der Medien miteinander vergleichen und sich somit selbst ein Bild sowie eine Meinung machen kann. Folgt eine Krise, wie sie aktuell der Fall mit dem Coronavirus ist, können Menschen im dritten Lebensalter besonders davon betroffen sein. Denn Medien nutzen oftmals Krisen, indem sie ihre Berichte skandalisieren. Die definierte Zielgruppe geht laut BAG Bundesamt für Gesundheit zur Risikogruppe. Eine medial inszenierte Berichterstattung kann in einer Krisensituation zusätzlich als belastend empfunden werden, denn dies kann die Wahrnehmung der Zielgruppe in einer Krisensituation verschlechtern. Die Arbeit bietet im ersten Teil einen Überblick über die Vielfalt des Themengebietes mediale Krisenkommunikation in der professionellen Sozialen Arbeit. Sie wird von einer ressourcenorientierten Perspektive geleitet und soll dem Lesenden entsprechende Einblicke zur Relevanz der Bedienung von Medien sowie deren kritische

Auseinandersetzung bieten Weiter möchte die Autorin mit ihrer Themenwahl die Soziale Arbeit auf die Wichtigkeit der Medienkompetenz sensibilisieren Medien gelten gem ss Pawlak 2018 als vierte Macht und sollen der Bevölkerung dabei helfen sich eine Meinung über eine Situation anzueignen Ziel des zweiten Teils ist es aufzuzeigen wie einschneidend bestimmte Altersansichten und definitionen für die Zielgruppe sein können welche auf politischer Ebene beschlossen werden Es werden konkrete Handlungsvorschläge zur stärker orientierten professionellen Bearbeitung des Themas in Zusammenhang auf die Zielgruppe formuliert Weiter werden Tätigkeitsfelder in der Sozialen Arbeit aufgezeigt welche bereits Angebote bezüglich Medienkompetenz anbieten Zudem wird beleuchtet wo aktuell Handlungsbedarf besteht Konkret werden im Beratungskontext der Sozialen Arbeit neue Blickwinkel eröffnet und die Professionellen der Sozialen Arbeit dazu angeregt ihr Tätigkeitsfeld kritisch und reflektiert zu hinterfragen und ausgeführte Grundsätze in ihr alltägliches professionelles Handeln einfließen zu lassen

Die Mechanismen der Skandalisierung Hans Mathias Kepplinger, 2018-06-01 Was unterscheidet einen Skandal von einem Missstand und warum gibt es die größten Skandale in Ländern mit den geringsten Missständen Wie werden kleine Missstände zu großen Skandalen und warum gehen einige Skandalisierte öffentlich unter während andere sich erfolgreich behaupten Warum betrachten sich alle Skandalisierten auch dann als Opfer wenn sie zugeben was man ihnen vorwirft Woran erkennt man ob Skandale natürlich oder schlicht sind Und ganz zentral Worauf beruht in Skandalen die Macht der Medien und wie gehen sie damit um Antworten liefern repräsentative Analysen von mehreren tausend Skandalberichten in Presse Hörfunk und Fernsehen sowie systematische Befragungen von weit über eintausend Journalisten Politikern Juristen Managern und Vertretern von Interessengruppen Ihr Ergebnis ist eine empirisch fundierte Skandaltheorie Sie bildet die Grundlage von anschaulichen Fallstudien zur Skandalisierung von prominenten Personen darunter Bundespräsident Christian Wulff und Bischof Franz Peter Tebartz van Elst bedeutenden Unternehmen darunter VW und Shell wichtigen Technologien darunter die Kernenergie und Dieselmotoren sowie erfolgreichen Produkten darunter das G36 und Glyphosat

Corporate Apologia W. Timothy Coombs, 2010 **Communicating COVID-19** Monique Lewis, Eliza Govender, Kate Holland, 2021-10-07 This book explores communication during the first year of the COVID 19 pandemic Featuring the work of leading communication scholars from around the world it offers insights and analyses into how individuals organisations communities and nations have grappled with understanding and responding to the pandemic that has rocked the world The book examines the role of journalists and news media in constructing meanings about the pandemic with chapters focusing on public interest journalism health workers and imagined audiences in COVID 19 news It considers public health responses in different countries with chapters examining community driven approaches communication strategies of governments and political leaders public health advocacy and pandemic inequalities The role of digital media and technology is also unravelled including social media sharing of misinformation and memetic humour crowdsourcing initiatives the use of data in modelling tracking and tracing and strategies for managing uncertainties created in a pandemic Better Doctors, Better Patients,

Better Decisions Gerd Gigerenzer, J.A. Muir Gray, 2011-03-25 How eliminating risk illiteracy among doctors and patients will lead to better health care decision making Contrary to popular opinion one of the main problems in providing uniformly excellent health care is not lack of money but lack of knowledge on the part of both doctors and patients The studies in this book show that many doctors and most patients do not understand the available medical evidence Both patients and doctors are risk illiterate frequently unable to tell the difference between actual risk and relative risk Further unwarranted disparity in treatment decisions is the rule rather than the exception in the United States and Europe All of this contributes to much wasted spending in health care The contributors to *Better Doctors Better Patients Better Decisions* investigate the roots of the problem from the emphasis in medical research on technology and blockbuster drugs to the lack of education for both doctors and patients They call for a new more enlightened health care with better medical education journals that report study outcomes completely and transparently and patients in control of their personal medical records not afraid of statistics but able to use them to make informed decisions about their treatments **Island Rivers** John R. Wagner, Jerry K.

Jacka, 2018-06-19 Anthropologists have written a great deal about the coastal adaptations and seafaring traditions of Pacific Islanders but have had much less to say about the significance of rivers for Pacific island culture livelihood and identity The authors of this collection seek to fill that gap in the ethnographic record by drawing attention to the deep historical attachments of island communities to rivers and the ways in which those attachments are changing in response to various forms of economic development and social change In addition to making a unique contribution to Pacific island ethnography the authors of this volume speak to a global set of issues of immense importance to a world in which water scarcity conflict pollution and the degradation of riparian environments afflict growing numbers of people Several authors take a political ecology approach to their topic but the emphasis here is less on hydro politics than on the cultural meaning of rivers to the communities we describe How has the cultural significance of rivers shifted as a result of colonisation development and nation building How do people whose identities are fundamentally rooted in their relationship to a particular river renegotiate that relationship when the river is dammed to generate hydro power or polluted by mining activities How do blockages in the flow of rivers and underground springs interrupt the intergenerational transmission of local ecological knowledge and hence the ability of local communities to construct collective identities rooted in a sense of place Health Communication

The Nazi War on Cancer Robert Proctor, 2018-06-05 Collaboration in the Holocaust Murderous and torturous medical experiments The euthanasia of hundreds of thousands of people with mental or physical disabilities Widespread sterilization of the unfit Nazi doctors committed these and countless other atrocities as part of Hitler's warped quest to create a German master race Robert Proctor recently made the explosive discovery however that Nazi Germany was also decades ahead of other countries in promoting health reforms that we today regard as progressive and socially responsible Most startling Nazi scientists were the first to definitively link lung cancer and cigarette smoking Proctor explores the controversial and troubling questions that such findings raise Were the Nazis more complex morally than we thought Can good science come from an evil regime What might this reveal about health activism in our own society Proctor argues that we must view Hitler's Germany more subtly than we have in the past But he also concludes that the Nazis forward looking health activism ultimately came from the same twisted root as their medical crimes the ideal of a sanitary racial utopia reserved exclusively for pure and healthy Germans Author of an earlier groundbreaking work on Nazi medical horrors Proctor began this book after discovering documents showing that the Nazis conducted the most aggressive antismoking campaign in modern history Further research revealed that Hitler's government passed a wide range of public health measures including restrictions on asbestos radiation pesticides and food dyes Nazi health officials introduced strict occupational health and safety standards and promoted such foods as whole grain bread and soybeans These policies went hand in hand with health propaganda that for example idealized the Führer's body and his nonsmoking vegetarian lifestyle Proctor shows that cancer also became an important social metaphor as the Nazis portrayed Jews and other enemies of the Volk as tumors that must be eliminated from the German body politic This is a disturbing and profoundly important book It is only by appreciating the connections between the normal and the monstrous aspects of Nazi science and policy Proctor reveals that we can fully understand not just the

horror of fascism but also its deep and seductive appeal even to otherwise right thinking Germans **4-D Branding** Thomas Gad,2001 This work offers a universal model 4 D branding which can be used to create new brands or revitalise existing ones It identifies four brand characteristics functional social mental and spiritual **Polar Inertia** Paul Virilio,1999-11-01 If you ve ever felt like we re going nowhere fast and you d like to know why preferably sometime before you die read this book James Der Derian Brown University and UMASS Amherst Examining how the here and now of space territory the body are being redefined by new technologies and how this undoes simplistic versions of the globalization thesis Paul Virilio demonstrates how technology has made inertia the defining condition of modernity An instantaneous present has replaced space and the sovereignty of territory everything happens without the need to go anywhere **Naples in the Time of Cholera, 1884-1911** Frank M.
