Educating Lawyers William M. Sullivan, Anne Colby, Judith Welch Wegner, Lloyd Bond, Lee S. Shulman, 2007-03-09 The Challenge of Educating Lawyers This volume under the presidency of Lee Shulman is intended primarily to foster appreciation for what legal education does at its best We want to encourage more informed scholarship and imaginative dialogue about teaching and learning for the law at all organizational levels in individual law schools in the academic associations in the profession itself We also believe our findings will be of interest within the academy beyond the professional schools as well as among that public concerned with higher education and the promotion of professional excellence From the Introduction Educating Lawyers is no doubt the best work on the analysis and reform of legal education that I have ever read There is a call for deep changes in the way law is taught and I believe that it will be a landmark in the history of legal education Bryant G Garth dean and professor of law Southwestern Law School and former director of the American Bar Foundation Educating Lawyers succeeds admirably in describing the educational programs at virtually every American law school The call for the integration of the three apprenticeships seems to me exactly what is needed to make legal education more professional to prepare law students better for the practice of law and to address societal expectations of lawyers Stephen Wizner dean of faculty William O Douglas Clinical Professor of Law Yale Law School

**Higher Education's Road to Relevance**  
Susan A. Ambrose, Laura A. Wankel, 2020-01-02 Explores the current context, role and challenges of post secondary education and presents options for promising pathways forward. The post secondary educational system has undergone dramatic changes and experienced immense stress in the past two decades. Once regarded as the logical next step toward career opportunities and financial security, higher education is a subject of growing uncertainty for millions of people across the United States. It is more common than ever to question the return on investment, skyrocketing cost and student debt burden of going to college. Prospective students and many employers increasingly view attending institutions of higher learning as inadequate preparation for entering the 21st century workforce. High profile scandals, financial impropriety, sexual abuse, restrictions of free speech among others have further eroded public trust. In response to these and other challenges, leading voices are demanding strengthened accountability and measurable change. *Higher Education's Road to Relevance* illustrates why change is needed in post secondary education and offers practical solutions to pressing concerns. The authors, internationally recognized experts in college level teaching and learning innovation, draw heavily from contemporary research to provide an integrative approach for post secondary faculty, staff and administrators of all levels. This timely book helps readers identify the need for leadership in developing new networks and ecosystems of learning and workforce development. This valuable book will help readers understand the forces driving change in higher education. Develop multiple pathways to create and credential self directed learners. Promote access to flexible, cost effective and relevant learning. Adapt structures and pedagogies to address issues and overcome challenges. Use an inclusive approach that extends to employers, K-12 educators, post secondary educators and policy makers among others. *Higher Education's Road to Relevance* is a much needed resource for college and university administrators, academic researchers, instructors and other faculty and staff who support and interact with students.
