Singapore World City:

Global City Futures Natalie Oswin, 2019-04-15 Global City Futures offers a queer analysis of urban and national development in Singapore the Southeast Asian city state commonly cast as a leading global city Much discourse on Singapore focuses on its extraordinary socioeconomic development and on the fact that many city and national governors around the world see it as a developmental model But counternarratives complicate this success story pointing out rising income inequalities the lack of a social safety net an unjust migrant labor regime significant restrictions on civil liberties and more With Global City Futures Natalie Oswin contributes to such critical perspectives by centering recent debates over the place of homosexuality in the city state She extends out from these debates to consider the ways in which the race class and gender biases that are already well critiqued in the literature on Singapore and on other cities around the world are tied in key ways to efforts to make the city state into not just a heterosexual space that excludes queer subjects but a heteronormative one that queers many more than LGBT people Oswin thus argues for the importance of taking the politics of sexuality and intimacy much more seriously within both Singapore studies and the wider field of urban studies

Singapore: World City Kim Inglis, 2014-02-18 With stunning photographs and insightful commentary this travel pictorial and Singapore travel guide captures the dynamism of a remarkable Pacific nation In just a few short decades Singapore has transformed itself from a tiny island off the coast of mainland Asia into a global superpower in banking IT education biotech transportation and many other fields The fascinating story of how this tiny city state which has no hinterland no natural resources and a relatively small population has achieved success is told in this book Singapore's history as a British colonial port its dynamic multi ethnic population and its innovative governmental and social structures are a part of the story But there are others as well How Singapore became a regional hub for finance shipping and air travel and now also for the arts sport and leisure are all showcased in dynamic detail with over 300 full color photographs to illustrate graphically how this small island functions like a well tuned racing machine Author Kim Inglis a journalist and long time local resident leads the reader on a series of explorations through Singapore's most notable districts and neighborhoods explaining the growth and importance and showcasing what they have to offer the visitor Included are many lesser known corners of the island which very few visitors ever get to see

How to Build a Global City Michele Acuto, 2022-01-15 In How to Build a Global City Michele Acuto considers the rise of a new generation of so called global cities Singapore Sydney and Dubai and the power that this concept had in their ascent in order to analyze the general relationship between global city theory and its urban public policy practice The global city is often invoked in theory and practice as an ideal model of development and a logic of internationalization for cities the world over But the global city also creates deep social polarization and challenges how much local planning can achieve in a world economy Presenting a unique elite ethnography in Singapore Sydney and Dubai Acuto discusses the global urban discourses aspirations and strategies vital to the planning and management of such metropolitan growth The global city he shows is not one single idea but a complex of ways to imagine a place to be global and aspirations to make it so often deeply steeped in politics His resulting book is a call to reconcile proponents and critics of the global city toward a more explicit engagement with the politics of this global urban imagination

Singapore Kent E. Calder, 2016-11-01 How Singapore's solutions to common problems can provide examples for other societies Nearly everyone knows that Singapore has one of the most efficient governments and competitive advanced economies in the world But can this unique city state of some 5.5 million residents also serve as a model for other advanced economies as well as for the emerging world Respected East Asia expert Kent Calder provides clear answers to this intriguing question in his new groundbreaking book that looks at how Singapore's government has harnessed information technology data and a focus on innovative adaptive governance to become a model smart city smart state Calder describes Singapore as a laboratory for solutions to problems experienced by urban societies around the world In particular he shows how Singapore has dealt successfully with education energy environmental housing and transportation challenges many of its solutions can be adapted in a wide range of other societies Calder also explains how Singapore offers lessons for how countries can adapt their economies to the contemporary demands of global commerce Singapore consistently ranks at the top in world surveys measuring competitiveness ease of doing business protection of intellectual property and absence of corruption The book offers concrete insights and a lucid appreciation of how Singapore's answers to near universal problems can have a much broader relevance even in very different societies

The Singapore Water Story Cecilia Tortajada, Yugal Joshi, Asit K. Biswas, 2013 This book describes the journey of Singapore's development and the fundamental role that water has had in shaping it What makes this case so unique is that the quest for self sufficiency in terms of water availability in a fast changing urban context has been crucial to the way development policies and agendas have been planned throughout the

years **Singapore from Temasek to the 21st Century** Karl Hack, Jean-Louis Margolin, Karine Delaye, 2010 Once a centre for international trade and finance Singapore has become a global city *Singapore from Temasek to the 21st Century* Reinventing the Global City examines its evolution from trading port to city state showing how Singapore has repeatedly reinvented itself by creating or re asserting qualities that helped attract capital talent and trade In the 14th century the island s prosperity rested on regulating the regional carrying trade passing through the Straits of Melaka In 1819 after a long period of decline the British East India Company revived the island s fortune by making Singapore a free port and trade sustained the city until the Japanese occupation and the postwar collapse of colonial rule After independence Singapore resumed its role as a major commercial and financial center but added facilities to make the island a regional centre for manufacturing More recently it has transformed its population into an educated and highly skilled workforce and has made the island an education hub that is a magnet for research and development in fields such as biotechnology Singapore s dramatic evolutionary struggle defies description as a sequentially unfolding narrative or merely as the story of a nation In this volume an international group of scholars examines the history of Singapore as a series of discontinuous and varied attempts by a shifting array of local and foreign actors to optimise advantages arising from the island s strategic location and overcome its lack of natural resources publisher website **50 Years Of Urban Planning In Singapore** Chye Kiang Heng, 2016-10-17 50 Years of Urban Planning in Singapore is an accessible and comprehensive volume on Singapore s planning approach to urbanization Organized into three parts the first section of the volume Paradigms Policies and Processes provides an overview of the ideologies and strategies underpinning urban planning in Singapore the second section The Built Environment as a Sum of Parts delves into the key land use sectors of Singapore s urban planning system and the third section Urban Complexities and Creative Solutions examines the challenges and considerations of planning for the Singapore of tomorrow The volume brings together the diverse perspectives of practitioners and academics in the professional and research fields of planning architecture urbanism and city making *World Cities* Giok Ling Ooi, 2010 The book focuses on the major challenges that world cities are facing in such key areas such as governance social inclusiveness infrastructural development financial solvency as well as environmental and ecological sustainability Based on case studies from cities in North America Europe and the Asia Pacific top academics professionals and policymakers from the world over presents their views on how to best strike the balance between growth and sustainability *Singapore Perspectives: Singapore. World* Ariel Tan, Andrew Lim, Rachel Hau, 2019-05-13 This book is a collection of speeches presented at Singapore Perspectives 2019 by current players in international relations and leading academics and opinion shapers on how the post Cold War world order with emphasis on the relations between the United States and China will affect small states like Singapore and countries in Southeast Asia at local national and regional levels It features speeches by prominent personalities such as Singapore Minister for Foreign Affairs Dr Vivian Balakrishnan former Singapore Foreign Minister Mr

George Yeo and former Indonesian Foreign Minister Dr Marty Natalegawa Each speaker presents a fresh perspective on important developments in the world today

Singapore John Curtis Perry, 2017-01-01 Singapore has gained a reputation for being one of the wealthiest and best educated countries in the world and one of the brightest success stories for a colony turned sovereign state but the country's path to success was anything but assured Its strategic location and natural resources both allowed Singapore to profit from global commerce and also made the island an attractive conquest for the world's naval powers resulting in centuries of stunting colonialization In *Singapore Unlikely Power* John Curtis Perry provides an evenhanded and authoritative history of the island nation that ranges from its Malay origins to the present day Singapore development has been aided by its greatest natural blessing a natural deepwater port shielded by mountain ranges from oceanic storms and which sits along one of the most strategic straits in the world cementing the island's place as a major shipping entrepot throughout modern history Perry traces the succession of colonizers beginning with China in the fourteenth and fifteenth centuries and followed by the island's most famous colonizer Britain which ruled Singapore until the 1960s excluding the Japanese occupation of World War II After setting a historical context Perry turns to the era of independence beginning in the 1960s Plagued with corruption inequality lack of an educated population Singapore improbably vaulted from essentially third world status into a first world dynamo over the course of three decades with much credit due longtime leader Lee Kuan Yew Singapore's first prime minister who led the country for over three decades who embraced the colonial past established close ties with former foe Japan and adopted a resolutely pragmatist approach to economic development His efforts were successful and Singapore today is a model regime for other developing states Singapore's stunning transformation from a poor and corrupt colonial backwater into an economic powerhouse renowned for its wealth order and rectitude is one of the great and most surprising success stories of modern era Singapore is an accessible comprehensive and indeed colorful overview of one of the most influential political economic models in the world and is an enlightening read for anyone interested in how Singapore achieved the unachievable

Constructing Singapore Public Space Limin Hee, 2016-09-21 This book presents possible alternatives and interpretations to the well established notion in the mostly western discourse on public space The discourse on public space as understood in the democratic rationalist tradition when applied to the Singaporean public space would offer much criticism but would not be adequate in identifying alternative processes that allow for transformative potentials in public space Thus said the objectives of this book are 1 To develop a conceptual frame of reference to construct the discourse on Singapore public space 2 To form a preliminary model of Singapore public space through analyzing case studies 3 To understand the modes methods of production and representation of these public spaces within the rapidly changing urban context 4 To situate these constructions of public space and its possible trajectories within the larger discourse on public space and to examine the viability of such a construction and interpretive model of public space

Cities of the World Stanley D. Brunn, Donald J.

Zeigler, Maureen Hays-Mitchell, Jessica K. Graybill, 2020-03-03 This fully updated and revised seventh edition of the classic text now in full color offers readers a comprehensive set of tools for understanding the urban landscape and by extension the world's politics, economies, societies, and cultures

World Cities and Nation States Greg Clark, Tim Moonen, 2016-11-11 World Cities and Nation States takes a global perspective to show how national governments and states/provinces/regions continue to play a decisive and often positive partnership role with world cities. The 16 chapter book comprised of two introductory chapters, 12 central chapters that draw on case studies, and two summary chapters draws on over 40 interviews with national ministers, city government officials, business leaders, and expert academics

Governing Global-City Singapore Kenneth Paul Tan, 2016-12-19 This book provides a detailed analysis of how governance in Singapore has evolved since independence to become what it is today and what its prospects might be in a post Lee Kuan Yew future. Firstly it discusses the question of political leadership, electoral dominance, and legislative monopoly in Singapore's one party dominant system and the system's durability. Secondly it tracks developments in Singapore's public administration critically analysing the formation and transformation of meritocracy and pragmatism, two key components of the state ideology. Thirdly it discusses developments within civil society focusing in particular on issues related to patriarchy and feminism, hetero-normativity and gay activism, immigration and migrant worker exploitation, and the contest over history and national narratives in academia, the media, and the arts. Fourthly it discusses the PAP government's efforts to connect with the public including its national public engagement exercises that can be interpreted as a subtler approach to social and political control. In increasingly complex conditions the state struggles to maintain its hegemony while securing a pre-eminent position in the global economic order. Tan demonstrates how trends in these four areas converge in ways that signal plausible futures for a post LKY Singapore

Singapore Michael D. Barr, 2018-12-13 Singapore gained independence in 1965, a city state in a world of nation states. Yet its long and complex history reaches much farther back. Blending modernity and tradition, ideologies and ethnicities, a peculiar set of factors make Singapore what it is today. In this thematic study of the island nation, Michael D. Barr proposes a new approach to understand this development. From the pre-colonial period through to the modern day, he traces the idea, the politics, and the geography of Singapore over five centuries of rich history. In doing so, he rejects the official narrative of the so-called Singapore Story. Drawing on in-depth archival work and oral histories, *Singapore: A Modern History* is a work both for students of the country's history and politics but also for any reader seeking to engage with this enigmatic and vastly successful nation

Education in the Global City Aaron Koh, Terence Chong, 2017-10-02 *Education in the Global City* examines education in Singapore through the critical lens of manufacturing. The book brings together two disparate fields which inform each other: education and the global city. The book's contributors analyse and critique the manufacturing of Singapore education and Singapore's global city formation. The collection covers vocational education, language policies, Higher Education, English education, critical thinking, sex education, creativity, and critical feminist

scholarship Collectively the book pries open the ideology of the manufacturing education system and points out the tension between the nation and its ideologies and the global city aspirations It also asks how education contributes to and is shaped by the market realities of Singapore's global city ambitions which are at odds with the nationalistic local agenda and priorities of nation building In interrupting and speaking against the prevailing and narrow manufacturing of education for a teleological end in spite of Singapore's successful nation building this book is an important contribution to critical education scholarship This book was originally published as a special issue of Discourse Studies in the Cultural Politics of Education

Global City Futures Natalie Oswin, 2019 Global City Futures offers a queer analysis of urban and national development in Singapore the Southeast Asian city state commonly cast as a leading global city Much discourse on Singapore focuses on its extraordinary socioeconomic development and on the fact that many city and national governors around the world see it as a developmental model But counternarratives complicate this success story pointing out rising income inequalities the lack of a social safety net an unjust migrant labor regime significant restrictions on civil liberties and more With Global City Futures Natalie Oswin contributes to such critical perspectives by centering recent debates over the place of homosexuality in the city state She extends out from these debates to consider the ways in which the race class and gender biases that are already well critiqued in the literature on Singapore and on other cities around the world are tied in key ways to efforts to make the city state into not just a heterosexual space that excludes queer subjects but a heteronormative one that queers many more than LGBT people Oswin thus argues for the importance of taking the politics of sexuality and intimacy much more seriously within both Singapore studies and the wider field of urban studies

Singapore - Two Hundred Years of the Lion City Anthony Webster, Nicholas White, 2019-10-29 Two hundred years after Singapore's foundation by Stamford Raffles in 1819 this book reflects on the historical development of the city putting forward much new research and new thinking It discusses Singapore's emergence as a regional economic hub explores its strategic importance and considers its place in the development of the British Empire Subjects covered include the city's initial role as a strategic centre to limit the resurgence of Dutch power in Southeast Asia after the Napoleonic Wars the impact of the Japanese occupation and the reasons for Singapore's exit from the Malaysian Federation in 1965 The book concludes by examining how Singapore's history is commemorated at present reinforcing the image of the city as prosperous peaceful and forward looking and draws out the lessons which history can provide concerning the city's likely future development

Global City Dilemmas and Anglophone Singapore Literature Angelia Poon, 2024-09-11 This book looks at culturally significant English language texts produced in Singapore in the last 20 years by writers such as Balli Kaur Jaswal Alfian Sa at Claire Tham Amanda Lee Koe Ng Yi Sheng and Kevin Kwan It provides an analysis sensitive to the writers socio political and cultural contexts and shows how Singapore's Anglophone literature successfully disrupts the government's narrative on transforming the island into a global city By asking difficult questions challenging hegemonic perspectives and exploring alternatives the writers interrogate the

country's colonial history its post colonial Cold War development and the normalization of totalizing narratives Their texts also grapple with key aspects of contemporary Singapore society its official multiracialism forms of inequality distribution of privilege and gender and sexual politics By connecting these texts to developments in postcolonial literary criticism cosmopolitanism and globalization studies this book sheds light on the ideological and cultural forces at work in Singapore society today
