**Strategy And Defense Policy For Small States: Problems And Prospects** Bernard F W Loo, 2021-11-08 For students of Strategic Studies in small countries with limited financial human and military resources the available literature on Strategic Studies in particular texts that seek to explain the key concepts and components of Strategic Studies can be very alien in its focus to the strategic conditions and issues that these countries face. This book contains a collection of essays that

seeks to discuss key concepts in Strategic Studies as well as contemporary challenges in strategy and defence policy from the perspective of small states. It is based on the idea derived from the German philosopher of war Carl von Clausewitz that there is a distinction between logic and grammar while the field of Strategic Studies contains a number of key concepts such as geopolitics and geostrategy, strategic culture, arms dynamics and the phenomenon of military modernization that are universal in logic, the grammar that is the specific manifestations of these concepts in the contexts of small states is necessarily different from larger more materially endowed states. This collection of published work by leading East Asian scholars covers Asian perspectives concerning various issues in international law, ranging from general perspectives to particular themes such as international economic law, international human rights law, international ocean law, international criminal law, international security law and international dispute settlement. For the first time it provides a comprehensive picture of how and why East Asian countries participate in international law making as well as comply with international law in their state practices. In so doing, the editors attempt to address the question whether the rising powers in East Asia will change the existing international legal order in future.

*Singapore's Foreign Policy* Amitav Acharya, 2008 The conventional understanding of Singapore's foreign policy can be summarized in three main propositions: first, it is dictated by the imperatives of being a small state; second, its primary purpose is to ensure Singapore's survival given its small size; and third, this logic of survival dictates a realpolitik approach to foreign policy and national security. This book

argues that an exclusively realist view of Singapore's foreign policy is inadequate Singapore's foreign policy is also shaped by the positive effects of economic interdependence and regional institution building OCo instruments that realists tend to dismiss but which Singapore has self consciously tried to promote as instruments of regional order The book first looks at the evolution of Singapore's foreign policy before analyzing Singapore's international relations and national security in the context of economic growth and terrorism It concludes with an interesting chapter on the impact of the rise of China and India on the regional landscape Sample Chapter's Introduction Rethinking Singapore's ForeignPolicy 435 KB Chapter 1 The Evolution of Singapore's Foreign Policy Challenges of Change 468 KB Contents Introduction Rethinking Singapore's Foreign Policy Part I Foundations The Evolution of Singapore's Foreign Policy Challenges of Change The Economic Foundations of Singapore's Security From Globalism to Regionalism Part II Adaptations Diplomacy in Hard Times Singapore Confronts Global Terrorism and Regional Regression Waging the War on Terror Singapore's Responses and Dilemmas Singapore and Southeast Asia in a Fast changing Landscape Coping with the Rise of China and India Readership Undergraduates graduates and academics in foreign policy and international relations government ministries general readers interested in Singapore issues

**Transforming Malaysia** Anthony Milner,2014-11-11 In the wake of Malaysia's 13th General Election some commentators speak of a sharpening of ethnic politics with Prime Minister Najib blaming a Chinese tsunami for his government's polling setbacks others are optimistic about the arrival of a new non racialized form of politics and the emergence of transethnic solidarity This book which engages with both the race paradigm and its opponents warns that change is likely to come slowly but is not impossible Malaysia's race paradigm is a man made ideological construct one that has been contested in the past and could realistically be contested in the future In confronting the continuing challenge of globalization Malaysians should not neglect the history of ideas and ideology as they search for new options **Thaipusam in Malaysia** Carl Vadivella Belle,2018-02-14 This book explores the festival of Thaipusam in terms of its own inner dynamics the traditions and belief structures which ensure the festival's continuing relevance to Malaysian Hindus It argues that Thaipusam reflects a growing sense of Hindu identity in Malaysia and an as yet inchoate unity It contends that while the kavadi ritual provides profound meaning at the individual and group level Thaipusam furnishes a public arena for and gives expression to a powerful Hindu resurgence largely though not exclusively fuelled by Dravidian assertiveness In situating the festival within the context of a Malaysia dominated by Malay and Islamic power brokers a society in which both the Indian community and Hinduism are relegated to the margins the book explores the festival of Thaipusam as a vehicle for

mobilization of religious symbols and values which not only simultaneously articulate ethnicity and thus resist the forces which threaten cultural and religious integrity but which also ultimately signal wider allegiances to the broader politico cultural world of an imagined immeasurably rich and enduring Indo Hindu civilization      *Southeast Asia in the New International Era* Robert Dayley, 2019-12-05 This newly revised eighth edition of *Southeast Asia in the New International Era* provides readers with contemporary coverage of a vibrant region home to more than 650 million people vast cultural diversity and dynamic globalized markets Sensitive to historical legacies and paying special attention to developments since the end of the Cold War this book highlights the events players and institutions that shape the region Employing a country by country format the analysis engages in context specific treatment of the region's eleven countries Thailand Myanmar Burma Vietnam Cambodia Laos the Philippines Indonesia Timor Leste Malaysia Singapore and Brunei Fully updated the book's revised content includes Rodrigo Duterte's drug war in the Philippines Malaysia's historic 2018 election ending four decades of UMNO rule Hun Sen's latest power grab in Cambodia and a consequential monarchical transition in post coup Thailand It also analyzes recent developments in the South China Sea dispute the Rohingya tragedy in Myanmar China's expanding Belt and Road Initiative as well as the effects of the Trump Administration's tariffs and trade war An excellent resource for students this textbook makes sense of the region's coups elections policy debates protests and alliances leaving readers with a solid foundation for further study
