**Linguistics for Singers** Gregory Camp, 2023-08-22 *Linguistics for Singers* An Introduction is a textbook and manual that provides singers with a foundation in linguistic features of four major singing languages English Italian French and German and shows how these features can be used to inform vocal performance and interpretation Going beyond the basics of lyric diction a grounding in linguistics enables student musicians to understand language holistically and more fully comprehend the music they are learning The comparative approach to four common languages allows readers to readily grasp similarities and apply principles across vocal repertoire Beginning with the sounds of a language and gradually moving up through larger levels of linguistic structure from words to full texts the chapters illustrate concepts using real examples from art songs and opera The clear explanations enable readers new to linguistics to connect these concepts with their own musical practice Designed for flexible use in courses on language and singing lyric diction repertoire studies and collaborative piano this book provides a vital resource for singers vocal instructors and conductors

**An Illusion of Equity** Wendy Zagray Warren, 2023-08-01 Public education plays a crucial role in crafting a nation's future In the United States education reform policy particularly the reliance on large scale standardized testing is a growing topic of national conversation and concern *An Illusion of Equity* The Legacy of Eugenics in Today's Education demonstrates how centuries of propaganda have led us to accept the idea that test scores indicate something so valuable about human beings that they should be used to organize society Drawing on decades of experience as an educator author Wendy Zagray Warren unpacks the origins of this practice inviting us to probe the ideologies underlying testing procedures and score interpretation and to evaluate the rationale for using test scores as the sole markers for academic achievement From the beginning large scale tests have produced scores divided by race and class Initially these results aligned with the eugenic ideology of its creators Warren shows that while the rhetoric used to justify test based policy has changed the model used to produce test scores remains much the same Therefore so do the outcomes of test based policies which continue to reproduce and reinforce the existing social hierarchy of the United States The hope of equity lies in educators charting new paths and scholars around the world who are dreaming new educational paradigms into being Ultimately Warren invites policymakers educators and parents to explore the richness of possibility when education is designed around the belief that every child is worthy of the opportunity to thrive

*Singing and Communicating in English* Kathryn LaBouff, 2007-12-21

From the Foreword by Renee Fleming Kathryn LaBouff has developed an approach to singing in the English language which is wonderfully user friendly and which has surely saved much wear and tear on my voice It is a technique that has empowered me with the knowledge and skills to bring a text to life and to be able to negotiate all of the sounds of the language with the least amount of effort I have found her clever and extremely creative use of substitute consonants or combinations of consonants in creating clear diction utterly delightful because they are surprising and because they work These techniques have been equally useful when singing in foreign languages We sopranos are not usually known to have good diction particularly in our high range I found that working with Kathryn improved my ability to be understood by an enormous percentile of the audience with much less vocal fatigue than I would have experienced if left to my own devices I

have often told my colleagues enthusiastically of her interesting solutions to the frustrating problems of diction I am thrilled that her techniques are now in print for all to benefit from them In *Singing and Communicating in English* internationally renowned diction coach Kathryn LaBouff provides singers with an accessible guide to the principles of English diction they need to communicate the text successfully Her thorough and much sought after technique clarifies the physiology of speech emphasizes the studied practice of careful and articulate pronunciation and focuses on the study of English cadence Covering aspects of phonetics from vowels to diphthongs to fricatives the book includes multiple practical exercises in International Phonetic Alphabet IPA transcriptions helpful diagrams and pronunciation drills each chosen from the most essential English art song and operatic repertoire In addition to standard American and British English a variety of regional dialects and accents are covered in depth A companion website features a full range of vowel consonant drills poems read aloud by the author and by theater and voiceover actor John Keating as well as an exercise answer key and publishers lists to help the singer locate a vast array of English language works for performance This book is an invaluable resource for all vocalists both professional and aspiring diction instructors teachers and coaches and choral directors VISIT THE COMPANION SITE AT [www.oup.com/us/singinginenglish](http://www.oup.com/us/singinginenglish)

*Asymmetric Killing* Neil C. Renc, 2020 This book examines the moral right to kill in war and the extent to which this right is challenged by the growing capability of certain states to kill with little or no physical risk to their own forces

*Beyond Nature* Marco Maurizi, 2021-08-24 In *Beyond Nature* Maurizi tackles the animal question from an unprecedented perspective strongly criticizing the abstract moralism that has always characterized animal rights activism the author proposes a historical materialistic analysis of the relationship between humans and non humans By contrasting the thinking of Hegel Marx and the Frankfurt School with classical authors in the field of animal rights such as Singer Regan and Francione this text offers an alternative social and dialectical theory of animality and a different practical approach to the problem of animal suffering The hopes for change placed in veganism liberationism and animal activism are here assumed in a political revolutionary perspective in which human and animal liberation finally cease to oppose each other
