When the power switch is turned ON, the straight stitch is automatically selected. And the needle position is on the extreme left side.

Liquid crystal display window

2 Pull both needle and bobbin threads out to the back of the machine.

1 Attach the correct presser foot for straight sewing.

3 Position the fabric under the presser foot.

6 How To Operate The Automatic Thread Cutter

A. Lower the thread cutting lever.

At the end of a seam push the thread cutting lever completely down.

B. Needle up.

Release the thread cutting lever and the needle will go up, and the upper and bobbin threads are cut. The needle stops in the up position.

C. Raise the thread cutting lever.

After confirming that the needle has completely stopped, lift the thread cutting lever all the way up and the presser foot will be raised.

Physiognomics in the Ancient World Elizabeth Cornelia Evans, 1969 **Reading Eustathios of Thessalonike** Filippomaria Pontani, Vasileios Katsaros, Vasileios Sarris, 2017-02-20 Despite the relevance of Eustathios to both Classical and Byzantine studies no monograph and no collective volume in English has yet been devoted to his figure This book attempts to fill in this gap by addressing the various facets of his output above all his commentaries on Homer Dionysius the Periegete Pindar and the Iambic Canon on the Pentecost but also his historiographical work his speeches and his theological production receive due attention The book also tackles several aspects of Eustathios style proverbs allusions etc and the meaning of his work in the context of his historical moment Addressed at specialists but also at graduate students with an interest in the reception of Classical antiquity and in Byzantine civilisation the volume gathers papers by leading scholars from various countries and it opens up new paths of research in several areas of philology and history above all by interweaving and juxtaposing Eustathios dimension as an Homerist and an immensely learned classical scholar with his capacities as an orator a highly praised teacher a rhetorically refined writer of Greek prose an historian of his own turbulent times and an archbishop who had to fulfil his everyday duties **Sword Fighting** Herbert Schmidt, 2014 A comprehensive introduction to the subject of sword fighting Herbert Schmidt explains the fundamentals of fighting with the long sword the guards cuts and Master Cuts as well as advanced techniques and tactics for practical fighting These also include wrestling at the sword Typical combat sequences equipment tips cutting tests training and free fighting plus an extensive glossary round out this new standard work Its modern approach and numerous photos make this book a valuable textbook and reference work Herbert Schmidt is the leader of Ars Gladii the Austrian swordfighting club and is part of an international research community that is reconstructing historical European swordfighting and awakening it to new life He is acknowledged as an expert far beyond the borders of Austria *Ancient Cities of the Indus* Gregory L. Possehl, 1979 My study of the Indus Civilization has brought to light a body of excellent literature on various aspects of this ancient urban complex which has not been incorporated into the three or four standard sources frequently cited in secondary literature Most of this supplementary material is in journals and other periodicals often difficult to locate even in the best libraries Yet it constitutes an essential

source for a comprehensive study of this civilization To bring some of this literature together within a single volume was a major motivation behind the preparation of this book An attempt to correct a certain imbalance in our understanding of this civilization is of equal importance Too often it has been the standard source especially Sir Mortimer Wheeler s *The Indus Civilization* 1968 to which scholars have turned for information and interpretation There is no doubt about the excellence of Wheeler s book but it is still largely a reflection of his perspective In a sense then *Ancient Cities of the Indus* was compiled in an effort to introduce a range of opinion and interpretation of issues too often considered settled *The Rule of St. Benedict* Paul Delatte,1921 **Molecular and Structural Archaeology: Cosmetic and Therapeutic Chemicals** Georges

Tsoucaris,Janusz Lipkowski,2012-12-06 Recent progress in the analysis and structural characterisation of materials has an increasing impact on studies of archaeological specimens A need to embody such research into a new interdisciplinary field has appeared In this ARW we intended to bring together archaeologists and historians with physicists chemists crystallographers and pharmacists around the theme of structural information on complex archaeological materials Within this vast area the ARW has mainly focused on cosmetic therapeutic chemicals The objectives of this NATO ARW were twofold Delineating the contour of molecular and structural archaeology as an emerging interdisciplinary field based on structural analysis at the molecular level Examining novel methodologies to reconstruct the scenario of synthesis and transformation in the long term of compounds used in antiquity for health and beauty The strong interdisciplinarity of this meeting has been greatly favoured by the NATO ARW organisation allowing the mixing of different fields and disciplines with convergent general goals This Workshop has shown that the molecular and structural sensibility is a powerful tool towards the setting and often the solution of difficult archaeological and historical problems Ten different nationalities Europe Egypt USA were represented in the ARW and this mixing has contributed to the large range of subjects and archaeological contexts Thus a mutual interaction between Archaeology and Physical Sciences is expected The most obvious part is associated with extended use of any possible technique and method to get as much information about the archaeological samples as possible
