Moody's Manual of Railroads and Corporation Securities ,1909 Litigation Manual Outline and Litigation Manual, 1956-1971 United States. National Labor Relations Board. Division of Litigation. Legal Research and Special Projects Branch,1972 "Make it Yourself" Sarah A. Gordon,2009 Through home sewing Sarah A Gordon examines domestic labor marketing practices changing standards of femininity and understandings of class gender and race from 1890 to 1930 As ready made garments became increasingly available due to industrialization many women out of necessity or choice continued to make their own clothing In doing so women used a customary female skill both as a means of supporting traditional ideas and as a tool of personal agency The shifting meanings of sewing formed a contested space in which businesses promoted sewing machines as tools for maintaining domestic harmony women interpreted patterns to suit or flout definitions of appropriate appearances and girls were taught to sew in ways that reflected beliefs about class race and region Unlike studies of clothing that focus on changes in fashion Make it Yourself looks at the social and cultural processes surrounding home production Gordon examines sewing clothing as work whether resented or enjoyed and the function of that work for families and individuals from a range of backgrounds Another unique element is Gordon s use of an unusually wide variety of source materials from diaries photographs and government pamphlets to tissue paper patterns dresses sewing workbooks and paper dolls This hands on approach combined with an accessible writing style connects the reader to the women and girls who are at the heart of her study Altogether Make it Yourself provides a new perspective on a widespread yet often neglected form of women s work **Catalog of Copyright Entries.
