Noel Salazar, Nina Glick Schiller

Sinister Secret Vergangenheit Nadja Seiler:

The Hour Between Dog and Wolf Silke Scheuermann, 2018 Now in paperback Silke Scheuermann's portrayal of intimacy and estrangement between sisters as they navigate rivalries addiction and shared love interests A young woman who has been living abroad returns to her hometown of Frankfurt am Main in Germany Her sister Ines a beautiful impetuous painter who still lives there soon appears and promptly asks for financial help But the returning sister knew this was coming it is how their relationship has always worked And this time she's determined that that will change But our plans don't always hold up to the surprises presented by life and when the sister finds herself about to drift into an affair with Ines's lover the two women grow unexpectedly closer The Hour Between Dog and Wolf is a tale of disorientation in a modern fundamentally rootless society that has become increasingly erratic and self absorbed it is a powerful exploration of the difficulties of intimacy and addiction

Kosmos: A Portrait of the Russian Space Age, 2001-11 The inherent contradictions of the Space Age the mixture of technologies high and low of nostalgia and progress of pathos and promise are revealed in Kosmos Adam Bartos's astonishing photographic survey of the Soviet space program Bartos's fascination with this subject led him to seek out places like the bedroom where Yuri Gagarin slept the night before his history making flight into space located in the Baikonur Cosmodrome the one time top secret space complex in the Kazakh desert Kosmos presents 94 of Bartos's photographs rich with the incongruities of the history science culture and politics of the Space Age

Regimes of Mobility Noel Salazar, Nina Glick Schiller, 2016-08-25 Mobility studies emerged from a postmodern moment in which global flows of capital people and objects were increasingly noted and celebrated Within this new scholarship categories of migrancy are all seen through the same analytical lens This book builds on as well as critiques past and present studies of mobility In so doing it challenges conceptual orientations built on binaries of difference that have impeded analyses of the interrelationship between mobility and stasis These include methodological nationalism which counterpoises concepts of internal and international movement and native and foreigner and consequently normalises stasis Instead the book proposes a regimes of mobility framework that addresses the relationships between mobility and immobility localisation and transnational connection experiences and imaginaries of migration and rootedness and cosmopolitan openness Within this framework and its emphasis on social fields of differential power the various contributors to this collection ethnographically explore the disparities inequalities racialised representations and national mythscapes that facilitate and legitimate differential mobility and fixity Although they examine nation state building processes the anthropological analysis is not confined by national boundaries This book was originally published as a special issue of the Journal of Ethnic and Migration Studies

Why We Fought Peter C. Rollins, John E. O'Connor, 2008-07-25 Looks at war films from depictions of the American Revolution to portrayals of September 11 and its aftermath This volume contrasts recognized history and historical fiction with the versions appearing on the big screen It reveals how film depictions of the country's wars have shaped our values politics and culture

Spatial Justice Andreas Philippopoulos-Mihalopoulos, 2014-10-30 There can be no justice that is not spatial Against a recent tendency to despatialise law matter bodies and even space itself this book insists on spatialising them arguing that there can be neither law nor justice that are not articulated through and in space Spatial Justice presents a new theory and a radical application of the material connection between space in the geographical as well as sociological and philosophical sense and the law in the broadest sense that includes written and oral law but also embodied social and political norms More specifically it argues that spatial justice is the struggle of various bodies human natural non organic technological to occupy a certain space at a certain time Seen in this way spatial justice is the most radical offspring of the spatial turn since as this book demonstrates spatial justice can be found in the core of most contemporary legal and political issues issues such as geopolitical conflicts environmental issues animality colonisation droning the cyberspace and so on In order to argue this the book employs the lawscape as the tautology between law and space and the concept of atmosphere in its geological political aesthetic legal and biological dimension Written by a leading theorist in the area Spatial Justice Body Lawscape Atmosphere forges a new interdisciplinary understanding of space and law while offering a fresh approach to current geopolitical spatiolegal and ecological issues

Urban Interstices: The Aesthetics and the Politics of the In-between Dr Andrea Mubi Brighenti, 2013-12-28 Bringing together a team of international scholars with an interest in urban transformations spatial justice and territoriality this volume questions how the interstice is related to the emerging processes of partitioning enclave making and zoning showing how in between spaces are intimately related to larger flows networks territories and boundaries Illustrated with a range of case studies from places such as the US Quebec the UK Italy Gaza Iraq India and South east Asia the volume analyses the place and function of interstitial locales in both a disciplined urban space and a disordered space conceptualized through the notions of excess danger and threat Warning not to romanticize the interstice the book invites us to study it as not simply a place but also a set of phenomena events and social interactions How are interstices perceived and represented What is the politics of visibility that is applied to them How to capture their peculiar rhythms speeds and affects On the one hand interstices open up venues for informality improvisation challenge and bricolage playful as well as angry statements on the neoliberal city and enhanced urban inequalities On the other hand they also represent a crucial site of governance even governance by withdrawal and urban management where an array of techniques ranging from military urbanism to new forms of value extraction are experimented At the point of convergence of all these tensions interstices appear as veritable sites of transformation where social forces clash and mesh prefiguring our urban future The book interrogates these territories proposing new ways to explore the dynamics events and visibilities that define them **The**

Holocaust Sites of Europe Martin Winstone, 2024-01-25 The Holocaust the murder of approximately six million Jewish men women and children by Nazi Germany and its collaborators in the Second World War was a crime of unprecedented and unparalleled proportions perpetrated in innumerable locations across the European continent Now in its third edition The

Holocaust Sites of Europe is the most comprehensive and accessible guide to these sites serving as both a work of historical reference and a practical resource for visitors to them today It includes all major Holocaust sites in Europe covering more than 20 countries and encompassing not only iconic locations such as Auschwitz Birkenau and Bergen Belsen but also lesser known yet similarly significant sites like Maly Trostenets and Sajmi te It addresses extermination forced labour and concentration camps massacre sites and cities which were homes to major Jewish populations and often ghettos as well as Nazi euthanasia centres and locations associated with the genocide of Roma and Sinti In so doing the book also covers the many museums and memorials which commemorate the Holocaust This new edition has been fully updated to reflect developments which have affected sites in the 2010s and 2020s ranging from the establishment of new museums to growing threats from climate change and state sponsored distortion of history The Holocaust Sites of Europe is thus an indispensable and sensitive guide to both the history and the modern reality of the most traumatic sites in European history Historians of the Jews and the Holocaust David Engel,2009-12-07 The Nazi Holocaust is often said to dominate the study of modern Jewish history Engel demonstrates that to the contrary historians of the Jews have often insisted that the Holocaust be sequestered from their field assigning it instead to historians of Europe Germany or the Third Reich He shows that reasons for this counterintuitive situation lie in the evolution of the Jewish historical profession since the 1920s This one of a kind study takes readers on a tour of twentieth century scholars of the history of European Jewry and the social and political contexts in which they worked in order to understand why many have declined to view their subject from the vantage point of Jews encounter with the Third Reich Engel argues vehemently against this separation and describes ways in which a few exceptional scholars have used the Holocaust to illuminate key problems in the Jewish past Hitler's Germany Roderick Stackelberg,2002-01-22 This book provides a comprehensive history of Nazi Germany and sets it in the wider context of 19th and 20th century German history It analyses how a culture of such creativity and achievement could generate such barbarism and destructivity Animals in the Third Reich Boria Sax,2000-01-01 This is the first book to explore the paradox of the Nazi cult of animals and the obsession with the annihilation of biologically inferior people Animals in the Third Reich begins by contrasting Jewish Christian and polytheistic traditions relating to animals in Germany and examines the ways that the Nazi movement adopted altered challenged or exploited these traditions This discussion covers several perspectives on the treatment of animals including those of zoologists veterinarians novelists painters sculptors and the general public Adopting and exploiting such traditions the Nazis elaborated their own symbolic system of relating certain animals to supporters and antagonists of the movement Aryan wolves and horses Jewish pigs and apes BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Suicide in Nazi Germany Christian Goeschel,2015 The suicides of Hitler Goebbels Bormann Himmler and later Goering at the end of World War II were only the most prominent in a suicide epidemic that has no historical parallel and that can tell us much about the Third Reich s peculiar self

destructiveness and the depths of Nazi fanaticism Looking at the suicides of both Nazis and ordinary people in Germany from the end of World War I until the end of World War II Christian Goeschel shows how suicides among different population groups including supporters opponents and victims of the regime responded to the social cultural economic and political context of the time Richly grounded in gripping and previously unpublished source material Suicide in Nazi Germany offers a new perspective on the central social and political crises of the era from revolution economic collapse and the rise of the Nazis to Germany's total defeat in 1945 *Subliming Vessel*, 2013 This accompanying catalogue to the largest exhibition of Matthew Barney's extraordinary drawings to date explores this central aspect of the artist's important body of work Exhibition at The Morgan Library Museum New York 10 May 8 September 2013 **Stories from Other Places** Nicholas Shakespeare, 2015 Nicholas Shakespeare's collected stories take us across oceans and continents into the intimate lives of his characters and the dilemmas and temptations they face The opening novella *Oddfellows* tells the little known history of horrifying events that occurred on 1 January 1915 in the Australian outback town of Broken Hill where on the citizens' annual picnic outing the only enemy attack to occur on Australian soil during the First World War took them by surprise The other stories range through India Africa Argentina and Canada and include a magnificent tale of civic folly which sees an unreliable young councillor from the Bolivian mining town of Oruro lose himself in the seductions of Paris while trying to commission a bronze statue of his local hero All of them showcase Shakespeare's talent for insight and drama and his fascination with connection and disconnection and cultural misunderstanding **Sinister Secret** Nadja Seiler, 2015-05-26 Im Jahr 2086 ist die Weltordnung durch einen langen atomaren Krieg vollkommen verändert Die drei neuen Kontinente Sheratan Rigel und Antares bilden die globale Föderation Die verbliebenen Menschen sammeln sich in Megastädten die von der Entente beschützt werden einem militärischen Verband Mitglieder der Entente heißen Wächter sie besitzen keinen Namen keine Vergangenheit und keine Zukunft sie dienen lediglich dem Schutz der Gesetze der Föderation 3218 ist ein Wächter der Entente Als sie auf Befehl ihrer Regierung getötet werden soll schließt sie sich dem Kern an einem Volk aus Rebellen Dort findet sie heraus dass die Föderation durch Waffenherstellung einen erneuten Krieg riskiert um das Volk weiterhin mithilfe der neuen Weltordnung zu unterdrücken Ein Wettlauf gegen die Zeit beginnt der über Krieg und Frieden entscheidet
