

SIOP® Lesson Plan Template 2

STANDARDS: Early Learning Standards-PA Keys

1.1.D: Demonstrate a rich listening and speaking vocabulary, the ability to understand (receptive) and use (expressive) words to acquire and convey meaning.

7.1.A: Identify the following geographic tools: maps, globe and map elements.

7.1.B: Identify the continents and oceans.

THEME: Location of Jungles

LESSON TOPIC: where jungles are located on the map and globe (our world)

OBJECTIVES:

Language:

The students will be able to define and draw the vocabulary words as they understand them through the use of a personal picture dictionary

Content:

The students will be able to demonstrate vocabulary word knowledge through applying the specific words to the group activity

LEARNING STRATEGIES: recollection of prior knowledge (continent riddles), classroom discussion, think-pair-share, cooperative learning, whole group instruction

KEY VOCABULARY: map, globe, equator

MATERIALS: reading passages, globe, map, worksheets, pencils, continent cut outs, riddles, crayons, picture dictionaries

MOTIVATION:

(Building background)

The students in this class have previously learned the continents. There will be a riddle game with basic facts about each continent as the opener. The riddles will be written on the back of cut out shapes of the continents to which the riddles apply. The students will be motivated to guess the correct continent through the riddles and facts that they already have proven to understand. They will also be motivated to share experiences, information, comments and thoughts to answers throughout the lesson by the open-ended questions asked and implemented throughout the lesson. They will be encouraged to explore facts about an assigned area of the world on the computer and through interactive hands-on learning.

PRESENTATION:

(Language and content objectives, comprehensible input, strategies, interaction, feedback)

The teacher will first review the three vocabulary words using word cards and tangible items. As the words are defined and explained by the teacher, the students will be asked to say the words along with her. She will explain them using an actual globe and map, while using her finger to point out the equator on both items. The students will get a chance to touch the globe and map while it is being passed around the classroom. They will be asked questions such as: Have you ever used a map? Tell me about it. What is the same between a globe and a map? The students will be reminded to take note of these words because they will be asked to define them in their picture dictionaries at the end of the class period.

The students will participate in a T-P-S activity to discuss where they think jungles might be
