environmentalists to determine if these pollutants could have played a role in her sister's death While researching Sue's cancer she discovered her own a vicious though treatable form of pancreatic cancer Doctors and even family urged her to forget causes and concentrate on cures but Nichols knew that it was relentless questioning that had led to her diagnosis And that it is questioning by government as well as individuals that could save other lives Lake Effect challenges us to ask why It is the fulfillment of a sister's promise And it is a call to stop the pollution that is endangering the health of all our families
