Rowe,2020-04-16 Women and girls are often excluded from organised sport or face challenges in accessing sport or developing within sport This is the first book to focus on sport development for women and girls It provides a theoretical and practical framework for readers in the emerging field of sport development *Developing Sport for Women and Girls* examines both the development of sport and development through sport with expert contributions from Australasia North America and Europe It offers critical analysis of contemporary sport development from high performance pathways to engaging diverse communities to the use of sport to empower women and girls Each chapter explores various contexts of sport development and sport for development theory with a specific focus on women and girls It covers key topics such as health education sexual orientation and participation across the lifecourse and features international case studies in every chapter This is essential reading for students academics researchers and practitioners working in the area of sport development or sport management **The Oxford Handbook of Women and Competition** Maryanne L. Fisher,2017-08-14 While women are

generally perceived to be less competitive than men women compete in many ways and in a variety of situations Women try

to make themselves look more attractive to draw the attention of a desirable mate They will use gossip as a form of informational warfare to influence reputations They compete as mothers to gain access to resources that directly influence the health of their children They use selfies posted on social media to manipulate others perceptions Women compete all of their lives in the womb through adolescence and adulthood and into their elder years The topic of women s competition has gained significant momentum over the years Edited by Maryanne L Fisher The Oxford Handbook of Women and Competition provides readers with direct evidence of this growth and is one of the first scholarly volumes to focus specifically on this topic Fisher and her team of contributors offer a definitive worldview of the current state of knowledge regarding competition among women today Many of the chapters are grounded within an evolutionary framework allowing for authors to investigate the adaptive nature of women s competitive behaviors motivations and cognition Other chapters rely on alternative frameworks with contributors also asserting that socio cultural forces are the culprit shaping women s competitive drives Additionally several contributors focus their attention on issues faced by adolescent girls and explore the developmental trajectories for young women through adulthood Designed to serve as a source of inspiration for future research and direction The Oxford Handbook of Women and Competition is a stand out scholarly text focusing on the many competitive forces driving women today

Stand Up and Shout Out Joan Steidinger, 2020-03-11 Today women have greater opportunities to participate in sport than ever before particularly due to the passage of Title IX in 1972 Yet despite all this growth women still struggle to hold leadership positions become coaches of both girls and boys teams receive equal pay and get even adequate coverage in the media In Stand Up and Shout Out Women s Fight for Equality in Sports Joan Steidinger explores the three crucial areas in sport that remain huge concerns for women leadership money and media Steidinger looks at the number of ways in which women experience vast inequalities by examining topics such as the politics of sport sexual assault the MeToo movement pay equity women in coaching positions and the experiences of women of color and LGBTQ athletes Interviews with leading authorities in the field and prominent female athletes are interwoven throughout to add both expert and personal perspectives to the conversation Stand Up and Shout Out does more than just inform readers about these important issues its purpose is to create enlightened discussions around the unequal treatment of women and present readers with action steps so we can all become active contributors toward improving this situation This is an ideal time to fight for women s equality in sport as it draws attention to the growing need for advocacy for girls and women around the world in all areas of life

Sports Crazy Steven J. Overman, 2019-02-11 Sports Crazy How Sports Are Sabotaging American Schools exposes the excesses of middle and high school sports and the detrimental effects our sports obsession has on American education Institutions are increasingly emulating college and professional sports models and losing sight of a host of educational and health goals Steven J Overman describes how this agenda is driven largely by partisan fans and parents of athletes who exert an inordinate influence on school priorities and he explains how and why school administrators shockingly

and consistently capitulate to these demands The author underscores the incongruity of public schools involved in an entertainment business and the effects this diversion has on academic integrity learning life experience and overall educational outcomes Overman examines out of control school sports within the context of a school s educational mission and curriculum with telling reference to impacts on physical education He explores as well the outsized place of interscholastic sports beyond the classroom and scrutinizes the distorted relationship between intramural or recreational sports and elitist varsity athletics Overman s chapter on tackle football explains many reasons why this sport should be eliminated from the school extracurriculum and replaced by flag or touch football Overman presents a brief history of interscholastic sports and he compares and contrasts the American experience of school sponsored sport to the European model of community based clubs Which approach better serves students Overman recommends reforms in the context of a radical proposal to phase out interscholastic sports in favor of an intramural or club model This approach would alleviate such problems as elitism and gender bias and reign in hypercompetitiveness while freeing schools to educate students rather than provide public entertainment
