Marc Fumaroli presents a gallery of portraits of Europeans and Americans who conversed and corresponded in French along with excerpts from their letters or other writings. These men and women despite their differences were all irresistibly attracted to the ideal of human happiness inspired by the Enlightenment whose capital was Paris and whose king was Voltaire. Whether they were in Paris or far away speaking French connected them in spirit with all those who desired to emulate Parisian tastes, style of life and social pleasures. Their stories are testaments to the appeal of that famous sweetness of life nourished by France and its language.

Sisters Brigitte Lozerec'h, 2013-04-18. Mathilde Lewly, a female painter at the dawn of the twentieth century, has achieved notoriety among the Parisian avant garde. She and her husband, also a talented young artist, pursue their separate visions side by side in a Clichy atelier galvanized by the artistic ferment that surrounds them. But the couple are threatened by the shadow of Mathilde's little sister Eugénie, since the two girls' sudden departure from their native England. Eugénie has been determined to vault the eight years separating her from Mathilde. Now devoured by envy and haunted by a past she never actually experienced, the little one hurls herself into the artistic and personal life of her elder sister. It is the birth of a fierce rivalry, an emotional tug of war played out against the bohemian riot of the last century's wildest years. But will the First World War's sudden and brutal eruption allow Mathilde to escape this intimate conflict and achieve her destiny?

French Novels and the Victorians Juliette Atkinson, 2017. In 1836 John Wilson Croker, having immersed himself in dozens of contemporary French novels, warned his readers that she who dares to read a single page of the hundred thousand licentious pages with which the last five years have inundated society is lost for ever. It has become common to build an opposition between the attitudes towards fiction held in prudish Victorian England and permissive 19th century France. The lack of a full-length study of 19th century Anglo-French literary relations means however that the rejection of French novels has been greatly exaggerated. *French Novels and the Victorians* sheds new light on these relations.

by exploring the enormous impact of French fiction on the Victorian reading public The book considers the many different ties built between the two countries in the publishing industry identifying how French novels could be accessed and by whom as well as who promoted and who resisted the importation of Continental works in England and why The book reflects on what immorality meant to both critics and the readers they sought to warn and how the notion was subjected to scrutiny through censorship debates as well as the fictional representations of readers It also tackles the contemporary preoccupation with literary influence and explores how the extensive circulation of French fiction in England affected the concept of a national literature
