Three Weeks in November Ralph Weaver, 2012-06-18 The political phenomenon known as the Springtime of the Nations swept through Europe in 1848 toppling thrones forcing old autocratic regimes to grant constitutions to the people and bringing street fighting and large scale campaigns to cities and states across the continent What is not generally known is that a precursor to these events had already taken place in the center of Europe in the Alpine valleys of the collection of independent states known collectively as Switzerland In November 1847 twelve of the Swiss cantons went to war with seven other cantons over the future of the country The campaign lasted just three weeks with only a few hundred casualties and ended with the establishment of the modern Swiss state we have today If it had not ended so quickly it is likely that France Austria and Prussia would have become involved which would have led to a European wide war This book is unique in that it concentrates on the military aspects of this episode in history As well as an outline of the campaign itself it covers the strengths and organization of each canton in 1847 each was a separate state with its own army Included are chapters on the uniforms of the canton's armies their battle flags weapons and distinguishing badges The major battle of the war at Gislikon modern Gisikon a small village with a strategic river crossing just north of the city of Luzern is treated in detail As well as the general picture individual soldiers' stories illustrate the combat techniques of the period Biographies are given of some of the leading figures from both sides of the conflict which demonstrate the European dimension Many served in French Dutch and Neapolitan armies before taking appointments in the Swiss canton armies To compliment the text the book is well illustrated with a mixture of contemporary pictures in color and black and white and also specially produced color plates of Swiss canton uniforms and flags So that the reader can follow the campaign maps

from official Swiss sources are included Orders of battle for all the cantons and detailed orders of battle for the main action at Gislikon are also provided This is the latest title in Helion s groundbreaking series of 19th Century studies and will again appear in hardback as a strictly limited edition printing of 500 copies each individually numbered and signed by the author on a decorative title page Ralph Weaver has made a life long study of military history particularly of Europe in the 19th Century He began his military career with the Sealed Knot before giving up the sword for the pen He has been the editor of the journal of the Continental Wars Society for the past twenty five years and has written and illustrated books and magazine articles on military history He trained as a land surveyor in the Civil Service and has used his map making skills in battlefield walking and table top wargaming He has been collecting books pictures photographs and reference material on uniforms with a view to writing a definitive history on the subject As well as conducting research on military topics his latest interests include cooking and looking after grandchildren

Arming America Through the Centuries Benjamin Franklin Cooling,2022-09-29 This book examines the roots of the military industrial complex MIC in the eighteenth and nineteenth centuries the MIC s full flowering in the wake of the Cold War and how America s current MIC evolved after the events of 9 11 and throughout the War on Terror Specifically Cooling argues that the MIC has transformed into a problematic demand for absolute security that is neither practicable nor financially sound While emphasizing many aspects of Eisenhower s broad conception of the MIC and Eisenhower s own warning at the close of World War II Cooling s synthesis provides historical perspective on American industry as a matter of national security on the rise of outsourcing practices and on the changing nature of modern warfare

Weird Scenes Inside The Canyon David McGowan,2014-03-19 The very strange but nevertheless true story of the dark underbelly of a 1960s hippie utopia Laurel Canyon in the 1960s and early 1970s was a magical place where a dizzying array of musical artists congregated to create much of the music that provided the soundtrack to those turbulent times Members of bands like the Byrds the Doors Buffalo Springfield the Monkees the Beach Boys the Turtles the Eagles the Flying Burrito Brothers Frank Zappa and the Mothers of Invention Steppenwolf CSN Three Dog Night and Love along with such singer songwriters as Joni Mitchell Judy Collins James Taylor and Carole King lived together and jammed together in the bucolic community nestled in the Hollywood Hills But there was a dark side to that scene as well Many didn t make it out alive and many of those deaths remain shrouded in mystery to this day Far more integrated into the scene than most would like to admit was a guy by the name of Charles Manson along with his murderous entourage Also floating about the periphery were various political operatives up and coming politicians and intelligence personnel the same sort of people who gave birth to many of the rock stars populating the canyon And all the canyon s colorful characters rock stars hippies murderers and politicians happily coexisted alongside a covert military installation

Gender Integration in NATO Military Forces Dr Lana Obradovic,2014-07-28 Numerous states have passed gender integration legislation permanently admitting women into their military forces As a result states have dramatically increased

women's numbers and improved gender equality by removing a number of restrictions. Yet despite changes and initiatives on both domestic and international levels to integrate gender perspectives into the military, not all states have improved to the same extent. Some have successfully promoted gender integration in the ranks by erasing all forms of discrimination, but others continue to impede it by setting limitations on equal access to careers, combat, and ranks. Why do states abandon their policies of exclusion and promote gender integration in a way that women's military participation becomes an integral part of military force? By examining twenty-four NATO member states, this book argues that civilian policymakers and military leadership no longer surrender to parochial gendered division of the roles but rather support integration to meet the recruitment numbers due to military modernization, professionalization, and technological advancements. Moreover, it proposes that increased pressure by the United Nations to integrate gender into security and NATO seeking standardization and consistency on the international level and women's movements on the domestic level are contributing to greater gender integration in the military.

The Return of the Cold War J. L. Black, Michael Johns, 2016-04-14 This book examines the crisis in Ukraine, tracing its development and analysing the factors which lie behind it. It discusses above all how the two sides have engaged in political posturing, accusations, escalating sanctions, and further escalating threats, arguing that the ease with which both sides have reverted to a Cold War mentality demonstrates that the Cold War belief systems never really disappeared and that the hopes raised in the aftermath of the collapse of the Soviet Union for a new era in East-West relations were misplaced. The book pays special attention to the often ignored origins of the crisis within Ukraine itself and the permanent damage caused by the fact that Ukrainians are killing Ukrainians in the eastern parts of the country. It also assesses why Cold War belief systems have re-emerged so easily and concludes by considering the likely long-term ramifications of the crisis, arguing that the deep-rooted lack of trust makes the possibility of compromise even harder than in the original Cold War.

Civil War Flags of Tennessee Stephen Douglas Cox, 2024-01-12 *Civil War Flags of Tennessee* provides information on all known Confederate and Union flags of the state and showcases the Civil War flag collection of the Tennessee State Museum. This volume is organized into three parts. Part 1 includes interpretive essays by scholars such as Greg Biggs, Robert B. Bradley, Howard Michael Madaus, and Fonda Ghiardi Thomsen that address how flags were used in the Civil War, their general history, their makers, and preservation issues among other themes. Part 2 is a catalogue of Tennessee Confederate flags. Part 3 is a catalogue of Tennessee Union flags. The catalogues present a collection of some 200 identified extant Civil War flags and another 300 flags that are known through secondary and archival sources, all of which are exhaustively documented. Appendices follow the two catalogue sections and include detailed information on several Confederate and Union flags associated with the states of Mississippi, North Carolina, and Indiana that are also contained in the Tennessee State Museum collection. Complete with nearly 300 color illustrations and meticulous notes on textiles and preservation efforts, this volume is much more than an encyclopedic log of Tennessee-related Civil War flags. Stephen Cox and

his team also weave the history behind the flags throughout the catalogues including the stories of the women who stitched them the regiments that bore them and the soldiers and bearers who served under them and carried them Civil War Flags of Tennessee is an eloquent hybrid between guidebook and chronicle and the scholar the Civil War enthusiast and the general reader will all enjoy what can be found in its pages Unprecedented in its variety and depth Cox s work fills an important historiographical void within the greater context of the American Civil War This text demonstrates the importance of Tennessee state heritage and the value of public history reminding readers that each generation has the honor and responsibility of learning from and preserving the history that has shaped us all and in doing so honoring the lives of the soldiers and civilians who sacrificed and persevered [The World Factbook](#) ,2016 [The World Factbook 2016-17](#) Government Publications Office,2016-08-18 The World Factbook provides information on the history people government economy geography communications transportation military and transnational issues for 267 world entities The World Factbook Reference tab includes maps of the major world regions as well as Flags of the World a Physical Map of the World a Political Map of the World a World Oceans map and a Standard Time Zones of the World map This annual edition also covers information about country profiles and country comparisons It would make an excellent and useful resource for world geography research papers and international relations classes that may study the people history and communication patterns of other countries [Gaza](#) Donald Macintyre,2017-10-26 Uniquely imprisoned most Palestinians in Gaza cannot travel beyond the confines of the Strip and in times of war escape is impossible They live under siege economic and armed and yet so many remain courageous outspoken and steadfast Donald Macintyre lays bare Gaza s human tragedy and reveals how it became a crucible of conflict and a byword for suffering He identifies the repeated failings including those of the international community that have seen countless opportunities for peace pass by Yet against all odds hope for a better future lingers Gaza was once a flourishing coastal civilization open to the world Could it be so again *The Report: Dubai 2018* , Dubai has continued to meet its targets in becoming the global capital of Islamic finance nearly doubling the number of sukuk Islamic bonds listings on its exchanges since 2017 Furthermore eased policy restrictions to encourage foreign investment and the 2019 budget s continued commitment to infrastructure development ahead of Expo 2020 are expected to continue driving economic activity As one of the most diversified economies in the region Dubai continues to present growth opportunities in various sectors including tourism logistics manufacturing and education Although the emirate has benefitted from its proximity to oil and gas fields Dubai is right at the forefront of the emerging cleaner energy world and developing and promoting renewable technologies including solar energy and electric vehicles **The Report: Saudi Arabia 2018** , Key initiatives include a privatisation programme which would see the divestment of a number of state owned giants such as the partial listing of Aramco the creation of the world s largest sovereign wealth fund and the increased participation of women in the job market The Kingdom has played a key role too on the international stage in 2017 becoming the first

Entertainment Values Stephen Harrington, 2017-08-14 This collection brings together the work of a range of scholars from around the world with different perspectives on one simple question How can we assess the value of various entertainment products and forms Entertainment is everywhere The industries that produce it earn billions of dollars each year and employ hundreds of thousands of people Its pervasiveness means almost everyone has something to say about entertainment too whether it be our opinion on the latest Hollywood blockbuster a new celebrity couple or our concerns over its place in the world of politics And yet in spite of its significance entertainment has too often been dismissed with surprising ease within the academy as a mindless lowbrow even dangerous form of culture and therefore unworthy of serious appraisal let alone praise Entertainment Values challenges this assumption offering a better understanding of what entertainment is why we should take it seriously as well as helping us to appreciate the significant and complex impact it has on our culture

The War Lawyers Craig Jones, 2020-11-26 Over the last 20 years the world's most advanced militaries have invited a small number of military legal professionals into the heart of their targeting operations spaces which had previously been exclusively for generals and commanders These professionals trained and hired to give legal advice on an array of

military operations have become known as war lawyers The War Lawyers examines the laws of war as applied by military lawyers to aerial targeting operations carried out by the US military in Iraq and Afghanistan and the Israel military in Gaza Drawing on interviews with military lawyers and others this book explains why some lawyers became integrated in the chain of command whereby military targets are identified and attacked whether by manned aircraft drones and or ground forces and with what results This book shows just how important law and military lawyers have become in the conduct of contemporary warfare and how it is understood Jones argues that circulations of law and policy between the US and Israel have bolstered targeting practices considered legally questionable contending that the involvement of war lawyers in targeting operations enables legitimises and sometimes even extends military violence Nigeria, Africa, and the United States Olayiwola Abegunrin, 2016-12-07 The U S Department of Defense is fighting a new shadow war in Africa Africa is the battlefield of tomorrow and the United States military is spreading secret wars in the continent This book explores how and why this has happened Since the beginning of the twentieth century the formulation of the United States policy towards Africa has always been based on the strategic importance of the natural resources of Africa and how these can be used in the national interests of the United States However most Americans gave very little thought to Africa but instead referred to it as the Dark Continent not only because its peoples are dark skinned but also because it was unknown to them Africa is no longer dark but is rather becoming one of the lions on the move This book examines and analyzes Nigeria and U S policy on the continent since the Cold War It looks at Nigeria and the challenges facing the country including problems of development good governance and security It particularly focuses on the impacts of terrorism on Nigeria and U S Africa relations since the Cold War and the realities of September 11 2001 in relations to Nigeria and United States Islamists jihadists terrorism in Africa There is huge potential in Nigeria the country has the largest population in Africa and is well endowed in terms of both natural and human resources Nigeria also has the largest economy on the continent the largest black population in the world a burgeoning and vibrant youthful population and a tradition of international engagement since its independence Its advantageous geographical location in West Africa enables trade within the continent as well as with Europe North and South America and Asia Nigeria is the most important strategic partner for the United States in the African continent and will become increasingly so in this century **The Evolution of Cyber War** Brian M. Mazanec, 2015 Former secretary of defense Leon Panetta once described cyber warfare as the most serious threat in the twenty first century capable of destroying our entire infrastructure and crippling the nation Already major cyber attacks have affected countries around the world Estonia in 2007 Georgia in 2008 Iran in 2010 and most recently the United States As with other methods of war cyber technology can be used not only against military forces and facilities but also against civilian targets Information technology has enabled a new method of warfare that is proving extremely difficult to combat let alone defeat And yet cyber warfare is still in its infancy with innumerable possibilities and contingencies for how such conflicts may play out in the coming decades

Brian M Mazanec examines the worldwide development of constraining norms for cyber war and predicts how those norms will unfold in the future Employing case studies of other emerging technology weapons chemical and biological strategic bombing and nuclear weaponry Mazanec expands previous understandings of norm evolution theory offering recommendations for U S policymakers and citizens alike as they grapple with the reality of cyber terrorism in our own backyard
