The Sociology of Space Martina Löw, 2016-09-09 In this book the author develops a relational concept of space that encompasses social structure the material world of objects and bodies and the symbolic dimension of the social world Löw's guiding principle is the assumption that space emerges in the interplay between objects structures and actions Based on a critical discussion of classic theories of space Löw develops a new dynamic theory of space that accounts for the relational context in which space is constituted This innovative view on the interdependency of material social and symbolic dimensions of space also permits a new perspective on architecture and urban development

Thoughtrave: An Interdimensional Conversation with Lady Gaga Robert Craig Baum, 2016 *Thoughtrave* is the immediate and most detailed archive of Lady Gaga's emotional intellectual philosophical and spiritual evolution a reclaiming of her art and humanity from within the center of her celebrity during one of the most difficult transitions of her career Summer 2013 Fall 2014 Lady Gaga I don't like being used to make money I feel sad when I am overworked and that I just become a money making machine and that my passion and my creativity take a backseat That makes me unhappy So what did I do I started to say no Not doing that I don't want to do that I'm not taking that picture Not going to that event Not standing by that because that's not what I stand for *Thoughtrave* marks perhaps the most important and unconditional unpublished unencumbered insights into the music industry the personal battles that accompanied her transition from Stefani to Gaga It's one of those rare moments in

life when you ask a question of someone you've admired for many years and receive the most honest of answers leading both people into a relationship that was and remains one of the most important of my life says Baum a professor producer composer writer editor and activist for adjunct professors As Baum explains to Stefani in one of the many interviews published here for the first time Robert Craig Baum It's uncanny for me to look back at 2008 2011 when I was intensely meditating on the problem Why is there any being at all to find evidence of your intervention here with me to find you back then before I knew you It was almost as if I was playing the Bruce Willis character in Twelve Monkeys overshooting my mark in time space aiming for this particular conversation but speaking through Ereignis life gives to a moment I and many others call headphones on As George Elerick writes in his Introduction to the book In Hand to Hand Battle for the Users The book you hold in your hands easily falls into the category of a transgression It's as though we are breaking into somewhere we are not meant to be like a rave and are invited into the mind of one of today's musical geniuses Maybe we can even equivocate the experience to that of being a member of the paparazzi Their whole mode of employment is based on breaking social codes and entering into the lives of everyday people turned rock stars That's what this book is a disruptive invitation to break into the life and mind of Lady Gaga the person not just the persona

Pantomime Karl Toepfer, 2019-08-19 This book offers perhaps the most comprehensive history of pantomime ever written No other book so thoroughly examines the varieties of pantomimic performance from the early Roman Empire when the term pantomime came into use until the present After thoroughly examining the complexities and startlingly imaginative performance strategies of Roman pantomime the author identifies the peculiar political circumstances that revived and shaped pantomime in France and Austria in the eighteenth century leading to the Pierrot obsession in the nineteenth century Modernist aesthetics awakened a huge highly diverse fascination with pantomime The book explores an extraordinary variety of modernist and postmodern approaches to pantomime in Germany Austria France numerous countries of Eastern Europe Russia Scandinavia Spain Belgium The Netherlands Chile England and The United States Making use of many performance and historical documents never before included in pantomime histories the book also discusses pantomime's messy relation to dance its peculiar uses of music its modernization through silent film aesthetics and the extent to which writers performers or directors are authors of pantomimes Just as importantly the book explains why more than any other performance medium pantomime allows the spectator to see the body as the agent of narrative action
