SERVICE INFORMATION

DO NOT RETURN THIS UNIT TO THE RETAILER. PROOF OF PURCHASE WILL BE REQUIRED FOR WARRANTY SERVICE.

For assistance regarding the assembly, controls, operation or maintenance of the unit, please call the Customer Support Department at 1-866-206-2707 in the United States or 1-877-696-5533 in Canada. Additional information about the unit can be found on our website at www.remingtonpowertools.com. For service, please call the Customer Support Department to obtain a list of authorized service dealers near you. Service on this unit, both within and after the warranty period, should only be performed by an authorized and approved service dealer. When servicing, use only identical replacement parts.

SPARK ARRESTOR NOTE

NOTE: For users on U.S. Forest Land and in the states of California, Maine, Oregon and Washington, All U.S. Forest Land and the state of California (Public Resources Codes 4462 and 4443), Oregon and Washington require, by law that certain internal combustion engines operated on forested brush and/or grass-covered areas be equipped with a spark arrestor, maintained in effective working order, or the engine be constructed, equipped and maintained for the prevention of fire. In such cases, please call the local authorities for regulations pertaining to these requirements. Failure to follow these requirements could subject you to liability or a fine. **This unit is factory equipped with a spark arrestor.** If it requires replacement, ask your LOCAL SERVICE DEALER to install the Accessory Part #T53-06266 Muffler.

• SAFETY ALERT SYMBOLS •

Safety alert symbols are used to draw your attention to possible dangers. These symbols, and their explanations, deserve your careful attention and understanding. The safety warnings do not by themselves eliminate any dangers or warnings they give and are not substitutes for proper accident prevention measures. These safety instructions are not meant to cover every possible condition that may occur. If questions arise, please call the Customer Support Department at 1-866-206-2707 (U.S.) or 1-877-696-5533 (Canada).

SYMBOL	MEANING
	DANGER: Signals an EXTREME hazard. Failure to obey a safety DANGER signal WILL result in serious injury or death to yourself or to others.
	WARNING: Signals a SERIOUS hazard. Failure to obey a safety WARNING signal CAN result in serious injury to yourself or to others.
	CAUTION: Signals a MODERATE hazard. Failure to obey a safety CAUTION signal MAY result in property damage or injury to yourself or to others.

IMPORTANT! Signals special mechanical information.
NOTE: Signals additional important general information.

• IMPORTANT SAFETY INSTRUCTIONS •

READ ALL INSTRUCTIONS BEFORE OPERATING

	WARNING: When using this unit, basic safety precautions should always be followed to reduce the risk of property damage and personal injury, including the following:
	CALIFORNIA PROPOSITION 65 WARNING: Engine exhaust, some of its constituents and certain finished components contain or emit chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Wash hands after handling.

BASIC SAFETY PRECAUTIONS

- **DO NOT** rely exclusively upon the safety devices built into the unit.
- **DO NOT** allow the unit to be used as a toy.
- Please read the entire operator's manual carefully before attempting to assemble, operate or maintain the unit.
- Follow all safety instructions. Failure to do so can result in property damage or serious injury to yourself and/or others.
- Be thoroughly familiar with the controls and the proper use of the unit. Know how to stop the unit and disengage the cutting guide.
- Stay alert! Do not operate the unit when tired, ill or under the influence of alcohol, drugs or medication.
- Never allow children to operate the unit. Never allow adults to operate the unit without proper instruction.
- Make sure that all guards and safety attachments are properly installed before operating the unit.
- Keep these instructions in a safe place and have them to instruct others who use, if loaning someone this unit, also loan them these instructions.
- Keep bystanders, especially children and pets, at least 50 feet (15 m) away. If anyone enters the work area, stop the unit.
- Keep the work area clear. Cluttered areas invite injuries. Do not start cutting until the work area is clear and free from obstructions, there is secure footing and a planned retreat path from falling branches.
- Always wear appropriate eye and ear/hearing protection when operating this unit. Wear safety goggles or safety glasses with side shields, that are marked as meeting ANSI Z87.1-1989 standards. Failure to do so can result in serious eye injury caused by thrown or falling objects. If the operation is dusty, wear a face mask or dust mask. Use a hard hat or other type of safety helmet.
- Dress appropriately, wear heavy, snug-fitting clothes (long pants and a long sleeve shirt, non-slip protective gloves and closed shoes). Do not wear loose clothing, jewelry, short pants, sandals or go barefoot. Secure hair above shoulder level to prevent entanglement in moving parts.
- Only use the unit in daylight or good artificial light.
- Only use the unit for its intended purpose: to cut wood. Only use the unit as described in this manual. Only use the manufacturer's recommended attachment with this unit.

UNDERSTANDING KICKBACK

	DANGER: Kickback may occur when the nose or tip of the guide bar touches an object, or when the wood closes in and pinches the saw chain in the cut. In some cases, tip contact may cause a lightning-fast reverse action, kicking the guide bar rapidly back towards the operator. Pinching the saw chain along the top of the guide bar may push the guide bar rapidly back towards the operator. Either of these reactions may cause a loss of control over the unit, which can result in serious injury to the user. Contact with foreign objects within the wood can also induce a loss of chain saw control.
--	---

- **Rotational Kickback** can happen when the upper tip of the guide bar contacts an object while the chain is moving (Fig. 1 & 2). This can cause the chain to dig into the object, instantly stop moving. The guide bar is then kicked up and back toward the operator in a lightning-fast reverse reaction.
- **Pinch Kickback** can happen when the wood on either side of a cut closes in and pinches the moving saw chain along the top of the guide bar. This can cause the chain to instantly stop. The chain force is then kicked, kicking the saw to move in the opposite direction, sending the saw straight back toward the operator.
- **Push Kickback** can happen when the bottom of the guide bar hits a foreign object inside the wood. This can cause the chain to suddenly stop. The saw is then pulled forward and away from the operator, which could potentially result in the loss of control of the saw.

Fig. 1

Fig. 2

KICKBACK SAFETY PRECAUTIONS

- **DO NOT** over reach.
- **DO NOT** cut above shoulder height.
- **DO NOT** make cuts with the tip of the guide bar (Fig. 1).
- **DO NOT** let the tip of the guide bar contact any object, such as a log, branch, ground or other obstruction. Remove or avoid any obstruction that might impact the tip of the guide bar while cutting (Fig. 3).
- **DO NOT** cut more than one log or branch at a time.
- **DO NOT** twist the saw when removing the guide bar from an obstruction.
- **DO NOT** operate the unit with one hand! Serious injury to the operator, helpers or bystanders may result from one-handed operation. This unit is designed to be operated with two hands. Always grip the unit firmly with both hands when the engine is running. Keep the left hand on the front handle and the right hand on the rear handle. Use your thumb and index fingers encircling the handles. A firm grip will help maintain control of the unit and reduce kickback. Do not let your fingers slip off the left side of the unit to avoid being in the direct line of the saw chain. Follow all the Proper Grip on Handles instructions in the Operating Instructions section.
